

**Please explain why you don't plan to purchase your own home on the island.**

|          |           |           |  |
|----------|-----------|-----------|--|
| Village  | Permanent | Voter     | Cost   |
| Township | Seasonal  | Non Voter | Homes on the island are very expensive, and I no longer wish to maintain two residences.   |
| Village  | Permanent | Voter     | Too expensive  |
| Village  | Permanent | Voter     | Too expensive. Village Council is reckless and that overflows onto the whole island. We have both owned on the island, but hate the direction the Village is steering it in. |

**Can you explain why you don't vote on the island?**

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Seasonal  | Non Voter | Already registered in home Ohio county (Hancock)                                      |
| Township | Seasonal  | Non Voter | Because I live in Sandusky  |
| Township | Seasonal  | Non Voter | Because my residence is not my primary residence                                      |
| Township | Seasonal  | Non Voter | Don't live there full time. Not many issues to vote on in the township.               |
| Township | Seasonal  | Non Voter | Florida resident  |
| Township | Seasonal  | Non Voter | Florida resident  |
| Village  | Permanent | Non Voter | Have not registered yet   |
| Township | Permanent | Non Voter | Have not switched address from mainland   |
| Township | Seasonal  | Non Voter | Haven't changed my residency. Probably will do so in the next year                    |
| Township | Seasonal  | Non Voter | I am a Florida resident.  |
| Township | Seasonal  | Non Voter | I am a part-time island resident and maintain a permanent residence on the main land. |
| Township | Seasonal  | Non Voter | I am a registered voter in a different state  |
| Township | Seasonal  | Non Voter | I am a registered voter in Florida for tax purposes.                                  |
| Township | Seasonal  | Non Voter | I am not a resident   |
| Township | Seasonal  | Non Voter | I am not registered to vote and have revoked my contract to vote.                     |
| Township | Seasonal  | Non Voter | I am not yet a resident on the island. I still vote in my hometown.                   |

|          |          |           |  |
|----------|----------|-----------|--|
| Township | Seasonal | Non Voter | I am registered at my primary residence  |
| Village  | Seasonal | Non Voter | I am registered to vote at my main residence in Powell Ohio  |
| Township | Seasonal | Non Voter | I am registered to vote in my home Ohio county in southern Ohio                                    |
| Village  | Seasonal | Non Voter | I am still registered in my hometown   |
| Village  | Seasonal | Non Voter | I don't live there long enough to qualify as my permanent residence therefore I am unable to vote. |
| Township | Seasonal | Non Voter | I have not transferred my vote because I want to vote on candidates and issues where I live.       |
| Township | Seasonal | Non Voter | I live in Oregon Ohio and vote in Lucas co.  |
| Township | Seasonal | Non Voter | I vote at home in Nov.   |
| Township | Seasonal | Non Voter | I vote at my main residence location.  |
| Township | Seasonal | Non Voter | I vote at my permanent residence   |
| Township | Seasonal | Non Voter | I vote from my mainland residence.   |
| Township | Seasonal | Non Voter | I vote from my primary residence   |
| Township | Seasonal | Non Voter | I vote in my hometown.   |
| Township | Seasonal | Non Voter | I vote on the mainland   |
| Township | Seasonal | Non Voter | I vote where I live the majority of the year.  |
| Township | Seasonal | Non Voter | I'm a permanent resident of Rocky River, Ohio.   |
| Township | Seasonal | Non Voter | I'm a registered voter in Port Clinton   |

|          |          |           |   |
|----------|----------|-----------|---|
| Township | Seasonal | Non Voter | I'm registered for voting in another county at my 2nd home.                         |
| Township | Seasonal | Non Voter | I'm registered in another Ohio county   |
| Township | Seasonal | Non Voter | I'm registered to vote in another county.   |
| Township | Seasonal | Non Voter | I'm not a resident.   |
| Township | Seasonal | Non Voter | Inertia.  |
| Township | Seasonal | Non Voter | Infrequently there.   |
| Township | Seasonal | Non Voter | It is not my permanent address  |
| Township | Seasonal | Non Voter | It is not the site of my permanent residence.                                       |
| Village  | Seasonal | Non Voter | Just kept my registration on the mainland. Allows me to vote in person in November. |
| Township | Seasonal | Non Voter | Live most of the year in Loveland, Ohio and vote there.                             |
| Township | Seasonal | Non Voter | Main home in danbury township   |
| Township | Seasonal | Non Voter | Main residence is elsewhere   |
| Township | Seasonal | Non Voter | Main residence is in Wood County  |
| Township | Seasonal | Non Voter | My driver license is still my other residence.                                      |
| Village  | Seasonal | Non Voter | My permanent address is in a different state.                                       |
| Township | Seasonal | Non Voter | My permanent residence is in the Cleveland area.                                    |

|          |          |           |   |
|----------|----------|-----------|---|
| Township | Seasonal | Non Voter | My wife and I may change so that one of us votes on the island and one votes at our other residence, but until recently we felt there were more issues to vote on at our other residence. |
| Village  | Seasonal | Non Voter | Not A permanent Resident  |
| Township | Seasonal | Non Voter | Not a permanent resident.   |
| Township | Seasonal | Non Voter | not a permeant resident   |
| Township | Seasonal | Non Voter | Not a resident, I vote in the county I reside in -- Cuyahoga.   |
| Village  | Seasonal | Non Voter | not legal residence   |
| Township | Seasonal | Non Voter | Not my domicile   |
| Township | Seasonal | Non Voter | not my official address any more  |
| Township | Seasonal | Non Voter | Not my primary residence.   |
| Township | Seasonal | Non Voter | Not our primary residence.  |
| Township | Seasonal | Non Voter | Not permanent resident  |
| Township | Seasonal | Non Voter | Not registered me   |
| Township | Seasonal | Non Voter | Not resident during voting times  |
| Township | Seasonal | Non Voter | Not sure how to register.   |
| Township | Seasonal | Non Voter | Not sure of when to vote or even that I had a vote.   |
| Township | Seasonal | Non Voter | Not sure.   |

|          |          |           |   |
|----------|----------|-----------|---|
| Township | Seasonal | Non Voter | Not yet !   |
| Township | Seasonal | Non Voter | Off island permanent resident. Registered there       |
| Township | Seasonal | Non Voter | Off-season residence on the mainland.                 |
| Township | Seasonal | Non Voter | Part time. Not my place of residence.                 |
| Township | Seasonal | Non Voter | Part-time resident                                    |
| Township | Seasonal | Non Voter | Permanent address is in Dayton. That is where I vote. |
| Township | Seasonal | Non Voter | Permanent address is Michigan                         |
| Township | Seasonal | Non Voter | Permanent Fl resident                                 |
| Township | Seasonal | Non Voter | Permanent home in different county                    |
| Township | Seasonal | Non Voter | Permanent residence in another locale                 |
| Village  | Seasonal | Non Voter | Permanent residence is in Medina County, OH.          |
| Township | Seasonal | Non Voter | Registered at my permanent home on mainland.          |
| Township | Seasonal | Non Voter | registered in Toledo and have not changed yet         |
| Township | Seasonal | Non Voter | Registered to vote elsewhere                          |
| Township | Seasonal | Non Voter | Resident and vote in Florida                          |
| Village  | Seasonal | Non Voter | Seasonal  |
| Township | Seasonal | Non Voter | Seasonal resident                                     |

|          |          |           |   |
|----------|----------|-----------|---|
| Township | Seasonal | Non Voter | Seasonal resident. Registered on mainland   |
| Village  | Seasonal | Non Voter | Seasonal weekend resident.  |
| Village  | Seasonal | Non Voter | significant cost  |
| Village  | Seasonal | Non Voter | Since I am a seasonal resident, I feel that I need to maintain my voting address at my permanent address.   |
| Township | Seasonal | Non Voter | Summer part time resident   |
| Township | Seasonal | Non Voter | This is my second home  |
| Township | Seasonal | Non Voter | Up to this point we have stayed registered in our children's home district to allow us to vote on local school issues. We plan to switch registration to the Township in the near future. |
| Village  | Seasonal | Non Voter | VOTE AT HOME ADDRESS  |
| Township | Seasonal | Non Voter | Vote at my other residence  |
| Township | Seasonal | Non Voter | Vote at my permanent residence  |
| Village  | Seasonal | Non Voter | Vote at my permanent residence  |
| Village  | Seasonal | Non Voter | vote at our year round residence  |
| Village  | Seasonal | Non Voter | Vote in permanent residence   |
| Village  | Seasonal | Non Voter | We are Florida residents.   |
| Township | Seasonal | Non Voter | We haven't gotten around to registering to vote at pib  |
| Village  | Seasonal | Non Voter | We live on Catawba full time, weekends and vacations at our cottage on the Bay  |

|          |          |           |   |
|----------|----------|-----------|---|
| Township | Seasonal | Non Voter | We vote in the county where we live   |
| Township | Seasonal | Non Voter | We're not there long enough every year. Our primary residence is on the mainland. |
| Township | Seasonal | Non Voter | It's not the primary residence.   |
| Township | Seasonal | Non Voter | just took ownership of property will likely switch in future                      |

**Please explain why you don't plan to become a full time resident of the island.**

|          |          |           |   |
|----------|----------|-----------|---|
| Township | Seasonal | Non Voter | A great deal of family in the Cincinnati area.  |
| Township | Seasonal | Voter     | Age. We have a place in Florida for the cold and snowy months.  |
| Township | Seasonal | Non Voter | All my kids and grandkids are in Columbus   |
| Township | Seasonal | Voter     | As I get older and we have much less seasonal ice on the lake I enjoy spending more Winter time in Florida. |
| Township | Seasonal | Non Voter | Business owner off-island. Fully time employed  |
| Township | Seasonal | Non Voter | Currently babysitting our grandchildren during the week.  |
| Township | Seasonal | Non Voter | Ditto   |
| Village  | Seasonal | Non Voter | do not want to  |
| Village  | Seasonal | Voter     | Do not want to be on the island in the off season for medical reasons.                                      |
| Township | Seasonal | Non Voter | Doesn't work in our lifestyle right now.  |
| Township | Seasonal | Non Voter | Extended family does not live on the island.<br>Access to health care, shopping is not available            |
| Township | Seasonal | Non Voter | Florida in winter   |
| Township | Seasonal | Non Voter | Florida resident  |
| Township | Seasonal | Non Voter | Florida residents   |
| Township | Seasonal | Non Voter | Foxes Den only open April through October   |
| Township | Seasonal | Voter     | Have another house.   |
| Township | Seasonal | Non Voter | Have Florida residence and one in Wood County   |
| Township | Seasonal | Non Voter | Have home in Naples FL for winter   |
| Township | Seasonal | Non Voter | Health and it only a summer residence, not able to winterize.   |
| Village  | Seasonal | Non Voter | Health reasons dictate I some live on the mainland for easier access to medical care.                       |
| Township | Seasonal | Non Voter | High taxes in the state of Ohio   |
| Township | Seasonal | Non Voter | Homes are too expensive on the island. I prefer to live in a warmer climate in the winter.                  |
| Township | Seasonal | Voter     | House is a cottage not a year round home.   |
| Village  | Seasonal | Non Voter | House is too small for full time  |
| Township | Seasonal | Non Voter | I am in Florida six months of the year.   |
| Township | Seasonal | Non Voter | I don't want to live here. There is too little respect for owners and too much catering to the tourists.    |

|          |          |           |   |
|----------|----------|-----------|---|
| Township | Seasonal | Non Voter | I feel the island would be too quiet and isolated to spend all winter there. If we sell our other residence in Ohio, we would probably find another place to spend a few months in the winter, which would make us closer to full time residents but not really full time |
| Township | Seasonal | Voter     | I hate 'cold' and own a house in Florida also.  |
| Township | Seasonal | Non Voter | I have a full-time career in the Cleveland area.  |
| Township | Seasonal | Non Voter | I have a house in another part of the state.  |
| Village  | Seasonal | Non Voter | I have a mix of interests and some are on the mainland. Also island living is more expensive.   |
| Township | Seasonal | Voter     | I have another home in Florida and winter there.  |
| Village  | Seasonal | Non Voter | I have full time employment in Columbus Ohio  |
| Township | Seasonal | Non Voter | I have my permanent residence in Oregon   |
| Township | Seasonal | Non Voter | I like having my current home as my residence.  |
| Township | Seasonal | Non Voter | I no longer care for cold weather and I like to go South for the Winter. Also, the number of island businesses that are open during the Winter has diminished.  |
| Township | Seasonal | Voter     | I spend my winters in Florida   |
| Township | Seasonal | Non Voter | I will winter in Florida.   |
| Township | Seasonal | Voter     | Intend to become a full time resident elsewhere.  |
| Township | Seasonal | Non Voter | Job is not in the area  |
| Township | Seasonal | Non Voter | Jobs on the main land.  |
| Township | Seasonal | Non Voter | Live elsewhere. PIB is our summer residence.  |
| Village  | Seasonal | Non Voter | Live in FL in winter  |
| Village  | Seasonal | Non Voter | Live out of state   |
| Township | Seasonal | Voter     | Live part time in season  |
| Township | Seasonal | Non Voter | Mostly my age but even if I could move there permanently, I wouldn't as I am concerned about the downward direction of the quality of life on the island that I have observed over my 60 years of spending time there.  |
| Township | Seasonal | Non Voter | My career is off island. The island is a getaway. The best parts of the island are during summer.   |
| Township | Seasonal | Non Voter | My home on island is not suitable for winter living.  |
| Village  | Seasonal | Non Voter | Need to be closer to family at times.   |
| Township | Seasonal | Non Voter | No interest in living on the island during the winter   |
| Township | Seasonal | Non Voter | Not at that point in life.  |
| Village  | Seasonal | Voter     | Not interested living on island during the winter   |

|          |          |           |  |
|----------|----------|-----------|--|
| Village  | Seasonal | Non Voter | Not the right time.  |
| Village  | Seasonal | Non Voter | Odd question! Because I don't want to.   |
| Township | Seasonal | Non Voter | Only seasonal. To cold and isolated in the winter to be there.   |
| Village  | Seasonal | Non Voter | our cottage cannot sustain colder or winter months   |
| Township | Seasonal | Non Voter | Our cottage has no furnace   |
| Township | Seasonal | Non Voter | Our cottage is not winterized  |
| Township | Seasonal | Non Voter | Our home is in Houston. Ohio is too cold for us in the winter.   |
| Township | Seasonal | Non Voter | Our Island home does not have heat and I live in Sandusky  |
| Township | Seasonal | Voter     | Our plan 20 years ago was to retire and live on the island. Now we plan on selling and moving in the next few years as the island has changed tremendously and is no longer the environment we want to live. The island has become a circus with all the tourists. |
| Township | Seasonal | Non Voter | Potential purchase would be a vacation home  |
| Township | Seasonal | Non Voter | Property, utilities and taxes are too expensive.   |
| Township | Seasonal | Non Voter | Retiring in FL   |
| Township | Seasonal | Non Voter | Seasonal and shared residence  |
| Township | Seasonal | Non Voter | spend winters in Florida   |
| Township | Seasonal | Non Voter | Spouse would never allow   |
| Township | Seasonal | Non Voter | Still intend to maintain my Dayton home and spend the Spring, Summer and Fall months on the island.  |
| Township | Seasonal | Non Voter | Summer cottage   |
| Township | Seasonal | Non Voter | The health care facilities for a senior citizen are not optimal. Also the cost of living on the island is way to high.   |
| Township | Seasonal | Non Voter | This is a seasonal home for me and my family.  |
| Township | Seasonal | Non Voter | This would be to isolated of a lifestyle for me and my family  |
| Village  | Seasonal | Voter     | three considerations..<br>1-Winter travel to mainland is restricted and expensive<br>2-At my age 74, I want healthcare availability nearby in the winter<br>2-Daughter and grand kids are in Cleveland metro area  |
| Village  | Seasonal | Non Voter | Too cold in the winter.  |
| Village  | Seasonal | Non Voter | Too difficult to travel in off season.   |
| Township | Seasonal | Non Voter | too expensive  |
| Township | Seasonal | Non Voter | Too far from jobs and an international airport   |

|          |          |           |  |
|----------|----------|-----------|--|
| Township | Seasonal | Non Voter | Too isolated in the winter   |
| Township | Seasonal | Non Voter | Too isolated, plus no health facilities.   |
| Township | Seasonal | Non Voter | Too late in life.  |
| Township | Seasonal | Non Voter | too old. And the Middle Bass Community is too small to provide us with the social life we want.  |
| Township | Seasonal | Non Voter | Uncertain. I may in a few years, if I retire.  |
| Village  | Seasonal | Voter     | Want to be south in the cold weather   |
| Village  | Seasonal | Non Voter | WANT to remain part time   |
| Township | Seasonal | Non Voter | We already spend the majority of our days at our Put-In-Bay home - March thru early November. Its a bit too isolated for us during the winter months - for example we like the ability to go to gyms, stores, and travel during the winter months. |
| Township | Seasonal | Voter     | We also own a house in Florida and spend about four months there.  |
| Township | Seasonal | Non Voter | We don't live here long enough to change our residency to PIB  |
| Township | Seasonal | Non Voter | We have a home in Florida and spend winter there.  |
| Township | Seasonal | Non Voter | We have a home on the mainland near family   |
| Township | Seasonal | Non Voter | we have a primary residence elsewhere in Ohio and family is in that area.  |
| Township | Seasonal | Non Voter | We have jobs off the island.   |
| Township | Seasonal | Non Voter | We just spend the summers there.   |
| Village  | Seasonal | Non Voter | We live and vote in Florida half the year.   |
| Township | Seasonal | Non Voter | We split time between Florida and Ohio   |
| Township | Seasonal | Non Voter | We use our home on the island from April through November with additional trips over dec-march. Living on island in winter does not fit our work requirements.   |
| Village  | Seasonal | Non Voter | We will continue to be seasonal residents and live in Medina County in winter.   |
| Village  | Seasonal | Voter     | We're Senior citizens and the lack of easily obtainable medical care on the island was the deciding factor to not become permanent residents.  |
| Township | Seasonal | Non Voter | When living there in the summer, some basic chores/activities are already difficult and require lots of planning and mainland trips. (Groomer, hair, nails, vet appointments, eye lash appointments, full grocery runs, household shopping, etc)   |
| Township | Seasonal | Non Voter | Winter   |
| Township | Seasonal | Non Voter | Winter   |
| Township | Seasonal | Non Voter | Winters sound too isolated and lonely with only air access to the island (and too expensive!)  |

|          |          |           |                          |
|----------|----------|-----------|--------------------------|
| Township | Seasonal | Non Voter | Work in different county |
| Township | Seasonal | Non Voter | Work on the mainland     |
| Township | Seasonal | Non Voter | It's a seasonal home.    |

**Please explain why you wouldn't consider working full time from the island**

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Permanent | Voter     | Already work full time during the season  |
| Village  | Permanent | Voter     | Basically retired   |
| Township | Seasonal  | Non Voter | Because I need to be where I am currently.  |
| Township | Permanent | Voter     | Does not apply  |
| Village  | Seasonal  | Non Voter | House is too small to live permanently  |
| Village  | Seasonal  | Non Voter | I can only work part time remotely per my company's policy.   |
| Township | Seasonal  | Non Voter | I can work remote but only 2-3 days per week. I have to be in the office the other 2-3 days.  |
| Township | Seasonal  | Non Voter | I do work remotely from the island April-November. Travel requirements and isolation issues prevent that during winter months at this time. |
| Township | Seasonal  | Non Voter | I have in summers past and while it is great to work there, "normal" life errands and necessities make it difficult.                        |
| Township | Permanent | Voter     | I live here year round. I am a business owner. There is no 'remote working' necessary, as I physically work on the island.                  |
| Village  | Permanent | Voter     | I work full time on the island  |
| Township | Permanent | Voter     | I work the vineyards up here for Heineman's Winery, sun up to sun down.   |
| Township | Seasonal  | Non Voter | My husband is a teacher on the mainland and my kids are in school   |
| Township | Seasonal  | Non Voter | seasonal resident only.   |
| Village  | Permanent | Voter     | Semi-retired - Don't need another job.  |
| Village  | Seasonal  | Non Voter | The island is declining and becoming a different place than what it used to be  |
| Township | Seasonal  | Non Voter | Too cold in winter  |
| Township | Seasonal  | Non Voter | Travel needs, island ADA accessibility, complex healthcare needs, winter transit and accessibility  |
| Township | Seasonal  | Voter     | While I'm on the island I work from home. But when I'm in Florida during the winter, I work from there.                                     |

**Please explain why you are dissatisfied with island life. What could make things better for you?**

|          |           |       |  |
|----------|-----------|-------|--|
| Township | Permanent | Voter | Better control on what goes on ,on the island overall  |
| Village  | Permanent | Voter | Dissolve the Village   |
| Township | Permanent | Voter | Economic development and opportunities for young families is sorely lacking. Golf carts are too numerous, as well as laws against underage drivers, impaired drivers & reckless drivers are not enforced. Weekend visitors create an unsafe environment with over-indulgence, violence and vandalism. Zoning regulations hamper growth & new development of local businesses. Homes being bought and rented via Air BnB, Virbo, etc. diminish returns to the community financially and socially. |

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Seasonal  | Non Voter | <p>I still like to enjoy a party and a few drinks, but the alcohol emphasis and amount of excessive bars, golf carts, lack of respect for residents and their property especially on summer weekends, police dept. dysfunction and property tax increases have gotten way out of control. I do appreciate that the family friendly PR finally got more emphasis over the past 2 years, along with nature preserve area expansions, but it seems like it took way too long for that to happen and might be too late. Demolishing more history (The Crescent in town) for another bar shows that the alcohol greed still rules the island. Sure I witnessed adults doing wacky things back in the 60's when I was a child going into town and staying on our boat at the public docks. My own kids did too in the 90's, but it wasn't anything close to the stuff we see now. People tell me they would never bring their children to PIB on summer weekends now. That's very sad to me but I totally understand that. My family owned 2 homes on the island over the past 45 years. They restored a nice historical home in town. People on the street, many long time islanders, took pride in their homes too and appreciated PIB history and uniqueness. Most of those homes were demolished and the street is now mostly parking and hotels for people to drink at the large swim up bar, etc. There has never been any kind of historical preservation zoning which is a shame. Kind of ironic since the area should be on the National Register of Historic Places considering the Battle of Lake Erie and unique history of the islands. I've asked the monument rangers about that over the years, but pretty much got the answer I expected. Party image revenue is perceived to be better than a unique historical island. Mackinac Island does very well with tourism without the tropical party emphasis. Too bad PIB couldn't embrace its original identity but many of us saw where the island was heading many years ago. I still love the best sunsets of anywhere I've traveled, the best perch/walleye dinners in the country, and the gorgeous days in the fall. Our family still loves July 4th and the fireworks at PIB. We love the friendliness of many of the long time islanders we've known over the years. I understand that people need to make a living, but I wish there had been some careful long range planning done before things got so out of control with the partying, golf carts and destruction of island businesses and homes of historical character. I'm pretty sure we will not be passing on our home to our children. They've seen the changes from their childhood memories. Sometimes it's best to just keep the memories in your heart.</p> |
| Township | Permanent | Non Voter | Lack of medical care and activities/opportunities for children  |
| Township | Permanent | Voter     | <p>My first wish is that everyone be treated equally and fairly. The fact that some are 'allowed' to get away with obvious violations eg, noise ordinance, traffic, Air BnB rentals, short term rentals, conflict of interest in purchasing is what seems to be driving folks from this island. I'm not saying it any better in larger areas, but is more pronounced here and therefore more obvious.</p>   |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Permanent | Non Voter | Poor mental health of school kids and no one is doing anything about it. Having the feeling of entrapment when the boats do not run, so you feel as you are stuck on the island, and trapped. Constant bad weather keeping you from your friends and family on the mainland. If you don't fit in with other kids, "drinking or smoking" you are often left out, and alone. |
| Village  | Seasonal  | Voter     | Rowdy crowds make life unpleasant now.   |
| Village  | Seasonal  | Non Voter | The business owners have pushed the party atmosphere too far.  |
| Township | Seasonal  | Non Voter | The drinking crowds we attract on the weekends is a shooting or riot waiting to happen.<br>We don't arrest drunken golf cart drivers.<br>Our police dept is under staffed with experienced officers.<br>The island should evaluate one government.   |
| Township | Seasonal  | Voter     | The golf carts are out of control. There are too many. Also the police department needs over hauled. There should be one police force that is over all the islands. The sheriffs office should not be here.  |
| Township | Permanent | Voter     | The State is terminating Heineman's lease early, creating undue stress on my future here.  |
| Township | Seasonal  | Non Voter | To many bars, bad police policies, no limit to Golf Cart rental, the taxies and drivers, the Village making decisions that effect the whole island, the Village business' not paying there fair share of the tourist costs, tourist bad behavior, no real noise limits. The Village not enforcing there own laws!  |
| Township | Seasonal  | Non Voter | Too many golf carts. Most businesses only care about making money and not the quality of life of the residents   |
| Village  | Permanent | Voter     | too crowded with golf carts & drunks especially on weekends. We don't plan to leave the house on summer weekends. Summer weekends are terrible. Golf carts don't stop for stop signs, U turns right in front of you with no warning. Many parents allow their young children to operate the golf carts. The police just don't seem to care.                                |
| Township | Permanent | Voter     | Too many tourists and golf carts. Have the tourists respect private property   |
| Township | Permanent | Voter     | Tourists gone wild have brought down the quality of life on PIB. Bumper to bumper golf carts and the smell of marijuana emanating from the parade of golf carts has turned PIB into a place I wouldn't want to raise children in. Limiting or banning golf carts would go a long way in alleviating the problem.   |

|          |          |           |   |
|----------|----------|-----------|---|
| Township | Seasonal | Non Voter | Too many golf cart rentals and mopeds make the roads congested and unsafe for our grandchildren. Have been a summer resident all my life as my family began loving the islands since @1900. The many hotels, swim up pools and brazen visitors have created an atmosphere that is unsuitable for families. We have to avoid town and our children no longer want to visit with their children. This will force us to leave. It really began with the Jet Express running late into the night. Ridiculous. |
|----------|----------|-----------|---|

**From the list below please pick your top 5 items for improving life on the island. - Other - Text**

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Seasonal  | Non Voter | Islanders being more welcoming to new residents, just because you were born on the island does not make you ruler of the island   |
| Township | Seasonal  | Non Voter | Access to decent groceries especially fresh fruits and vegetables   |
| Township | Permanent | Voter     | Affordable grocery with good selection  |
| Township | Seasonal  | Non Voter | Better ferry fees for residents   |
| Township | Seasonal  | Non Voter | Change the culture/reputation - less trashy, more classy  |
| Township | Seasonal  | Non Voter | Continuous zoning review and enforcement to reduce high density residential construction  |
| Township | Seasonal  | Non Voter | Decent grocery store  |
| Township | Seasonal  | Non Voter | Decent rentals for visitors   |
| Township | Permanent | Voter     | enforcement of rules and regulations (ie. zoning)   |
| Township | Seasonal  | Non Voter | Fewer bars  |
| Township | Seasonal  | Non Voter | Fewer bars and restaurants  |
| Township | Seasonal  | Non Voter | fewer golf carts  |
| Township | Seasonal  | Non Voter | fewer golf carts  |
| Township | Seasonal  | Non Voter | Fewer golf carts  |
| Township | Seasonal  | Non Voter | Fewer golf carts and better control of their use.   |
| Township | Seasonal  | Non Voter | Focus more on bringing families over instead of the drinking crowd  |
| Township | Permanent | Voter     | Governing body transparency   |
| Township | Seasonal  | Non Voter | Have bar owners pay more for police protection!   |
| Township | Seasonal  | Voter     | Higher end businesses downtown with higher quality food/drink that will attract an older crowd that spends more money, but doesn't trash the place or require more police to control. |
| Township | Seasonal  | Non Voter | Improved Police Department, not necessarily more coverage.  |
| Village  | Permanent | Voter     | Increasing airport hours  |
| Township | Permanent | Voter     | Enforce laws that would discourage the idiots from wanting to visit   |
| Village  | Permanent | Voter     | Less airbnbs, more housing for island residents   |
| Township | Permanent | Voter     | less fighting between summer and year rounders  |
| Township | Seasonal  | Non Voter | Less golf carts   |
| Village  | Seasonal  | Non Voter | less golf carts   |
| Village  | Permanent | Voter     | Less golf carts without horns   |
| Village  | Permanent | Voter     | Less golf carts. Better parking options   |
| Township | Seasonal  | Non Voter | Less liquor licenses  |
| Township | Seasonal  | Voter     | Less tourists   |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Seasonal  | Non Voter | Limit number of liquor licenses. Tax the guilty businesses to pay for the issues they cause.   |
| Township | Seasonal  | Non Voter | More family oriented businesses  |
| Village  | Permanent | Voter     | More responsible governmen serving the interstds of residential property ownerst   |
| Township | Seasonal  | Non Voter | None of these listed solve the weekly tasks I need to do to manage my household. I need fuller grocery stores, household stores (I.e. Target, Walmart-esq). I need to manage my dogs health and grooming, my grooming, all on island to be convenient to live there. |
| Township | Seasonal  | Non Voter | Outlawing golf carts. If the township raised the speed limit to 40, then golf carts would not be allowed on the road.  |
| Township | Seasonal  | Non Voter | potable water year round at Condos   |
| Township | Seasonal  | Non Voter | Reduce the number of rental golf carts allowed on the island and prohibit overnight rentals.   |
| Township | Seasonal  | Voter     | Reliable cell service; Greater emphasis on responsible golf cart operation.  |
| Village  | Seasonal  | Non Voter | Resident M.D.  |
| Township | Seasonal  | Non Voter | Task force to combat drugs being brought to the island   |
| Township | Permanent | Non Voter | Workout facility   |
| Village  | Seasonal  | Non Voter | Zoning that prevents over-building in residential areas. Also a nice rec center with a reasonable fee (not country club rates)   |
| Township | Seasonal  | Non Voter | Zoning/Historical Regulations  |
| Township | Seasonal  | Non Voter | Limit golf carts please. Require island businesses to up their expectations for entrance to facilities. Bachelorette parties should not display pornographic props.  |

Prefer 1    Prefer 2    Why  
Govt        Govts

**PREFER ONE FORM OF GOVERNMENT**

|          |           |           |                |  | <b>Duplicative/Wasteful/Less Efficient</b>  |
|----------|-----------|-----------|----------------|--|---|
| Township | Seasonal  | Non Voter | Agree          |  | Services can be combined, folks that live in the Village serve on the Township trustees, why have 2 Government bodies? Apparently, it is costing us more, especially with police protection to have two governing bodies. I am not surer, but we probably, as the township, also pay for fire protection. |
| Township | Seasonal  | Non Voter | Agree          |  | More continuity in services, laws, growth   |
| Village  | Seasonal  | Non Voter | Agree          |  | BETTER OVERSIGHT  |
| Township | Permanent | Voter     | Agree          |  | One government would bring one set of government rules, regulations, etc. to PIB. It would also allow current township residents to vote for/and run for what are currently PIB Village Mayor, Village Council positions. Current township residents are affected by Mayor and Council decisions.         |
| Township | Seasonal  | Non Voter | Agree          |  | Less confusion and opportunity for more islanders from township to run for office.  |
| Village  | Permanent | Voter     | Agree          |  | Have not studied the pros and cons to give a "strongly" answer. But it seems it would be simpler to have one governing party.   |
| Township | Seasonal  | Non Voter | Strongly Agree |  | Too much duplication of efforts with the township getting the least amount of services, considering the property taxes we pay!  |
| Township | Seasonal  | Non Voter | Strongly Agree |  | Cost. Savings   |
| Township | Seasonal  | Non Voter | Strongly Agree |  | Do not need separation between the village and township. All should be governed by one government with all island residents voting  |
| Township | Seasonal  | Non Voter | Strongly Agree |  | One form of government would enhance effectiveness and eliminate existing confusion. To ensure home rule and assure more optimal services that form of government would have to be incorporated, not a township.  |
| Township | Seasonal  | Non Voter | Strongly Agree |  | Having different rules for the township and city are difficult.   |
| Township | Seasonal  | Non Voter | Strongly Agree |  | The island needs to be run as one entity as small as it is. I think economically it would make sense to have services purchased for 1 government vs having 2. More qualified candidates to run for offices if you include the entire island.  |
| Township | Seasonal  | Non Voter | Strongly Agree |  | It is inefficient to have two governments for such a small community.   |
| Village  | Seasonal  | Non Voter | Strongly Agree |  | A township based government covering all the islands would be fairer to all residents.  |
| Township | Permanent | Voter     | Strongly Agree |  | Convenience   |
| Township | Permanent | Voter     | Strongly Agree |  | With one single government island resources would be better utilized. Presently they are overused by 2 entities. Also, one government would allow more qualified people to run for offices.   |
| Township | Permanent | Voter     | Strongly Agree |  | Wasting to many resources and to much money by dividing this small island Let's work together   |

|          |           |           |                |          |  |
|----------|-----------|-----------|----------------|----------|--|
| Township | Permanent | Voter     | Strongly Agree |          | It seems backwards to have two "competing" forms of government on such a small island. Many of the people who live in the township have businesses in the village and do not have the ability to vote on things like zoning, council members and mayor. In my opinion, the entire island should be annexed into the village of Put-in-Bay.   |
| Township | Permanent | Voter     | Strongly Agree |          | To move forward and be sustainable we have to do it together. Not as two separate entities. There are many people in both township and village that could help move the community forward but are unable to due to old governed laws.  |
| Township | Permanent | Voter     | Strongly Agree |          | too much duplication on government, zoning boards, trustees and council, and police for such a small place   |
| Village  | Permanent | Voter     | Strongly Agree |          | We are wasting so much time and money on using two governments. The non-renewal of township/village police services is a prime example of waste with little return. There are many township residents with an interest in the Village that have not vote. If the Village annexed all of South Bass and the Township maintained the upper islands, the Upper Islands could run the Township and be better represented. All of South Bass would have home rule. With the discussion of a head tax and other forms of funding for the community, a two-government system will cause more delays and headaches in trying to get the State to allow these other forms of funding. |
| Village  | Permanent | Voter     | Strongly Agree |          | To much overlapping and inconsistent polices   |
| Village  | Permanent | Voter     | Strongly Agree |          | More Controlled revenue for the island and by the island   |
| Township | Permanent | Non Voter | Strongly Agree |          | We can share services and funds and act with a unified focus   |
| Township | Seasonal  | Non Voter |                | Disagree | Duplication of some services and gaps in others.   |
| Township | Seasonal  | Non Voter |                | Disagree | We need one form of government to streamline, be cost effective and because there are fewer people in the village who will be able to run for office and not have a conflict because of their business interests.  |
| Township | Seasonal  | Non Voter |                | Disagree | Duplication of services, lack of coordination, more consideration for all residents, including the township, may be able to attract higher quality officials.  |
| Village  | Seasonal  | Non Voter |                | Disagree | One form of government would eliminate redundant services, be more fiscally responsible, and would promote more cohesion & collegiality among officials.   |
| Village  | Seasonal  | Non Voter |                | Disagree | It seems duplicative.  |
| Township | Permanent | Voter     |                | Disagree | I believe economies of scale could be better achieved with just one, unified governmental entity covering all of South Bass Island. Middle and North Bass island are a different question with potentially a different answer.   |
| Township | Permanent | Voter     |                | Disagree | Duplication  |
| Township | Permanent | Voter     |                | Disagree | One form would likely be simpler and less costly   |
| Township | Permanent | Voter     |                | Disagree | Recent Policing Issues<br><br>Parking, duplication of sevice, bureaucracies  |
| Township | Seasonal  | Voter     |                | Disagree | Duplication of services  |

|          |           |           |  |                   |   |
|----------|-----------|-----------|--|-------------------|---|
| Village  | Permanent | Voter     |  | Disagree          | feel it would be less costly to run the government if there were combined forces. Larger pool of people to run for government positions.  |
| Village  | Seasonal  | Voter     |  | Disagree          | It seems to me that pooling resources for a single government would be fiscally responsible. This is a small community, after all.  |
| Township | Seasonal  | Non Voter |  | Strongly Disagree | Lots a duplicate and overlapping services   |
| Township | Seasonal  | Non Voter |  | Strongly Disagree | Inconsistency of policies.  |
| Township | Seasonal  | Non Voter |  | Strongly Disagree | It runs counter to good island government. Two police forces are a waste of resources and taxpayer's monies. The Village government exists solely for the merchants: the Township, primarily for residences. Two governments divide the populace and gives rise to island animus.   |
| Village  | Seasonal  | Non Voter |  | Strongly Disagree | 1. Inefficient<br>2. Village population/government is too small to regulate summer population problems: no jail, weekly court, inadequate legal representation, inadequate technical expertise. No one knows how to do it. City manager needed.<br>3. Township trustees are administrators, not legislators, and cannot regulate behavior or generate revenue they control.   |
| Township | Permanent | Voter     |  | Strongly Disagree | As there are different (or no rules) in one area and not the other. Given the fact that there is extensive overlap in all aspects of the island, this makes no sense.   |
| Township | Permanent | Voter     |  | Strongly Disagree | It's crazy to have two , pretty easy to figure out why. Duplicate services, two entries pulling in opposite directions  |
| Township | Permanent | Voter     |  | Strongly Disagree | Inefficient and it leaves to many loopholes to where they work against each other   |
| Village  | Permanent | Voter     |  | Strongly Disagree | Problems with duplication of services, the confusion, problems finding people to work for two different entities  |
| Village  | Permanent | Voter     |  | Strongly Disagree | The village government is a failure and has become driven by resort tax revenue as the goal and then it feeds the need for more tourism. The resort tax gets spent entirely to keep supporting the law enforcement services needed for excessive and rowdy tourism. Time to realize too much of the wrong type tourism is destroying the whole island and wasting the resort tax that might otherwise be used to some other benefit.<br>Not having the past and present village mayors take a strong law enforcement stance has failed this island. Let the township have at it with the sheriff and just maybe get it under control without the political interference. Then maybe we can consider the possibility of a TWP police department for all the islands. |
| Village  | Permanent | Voter     |  | Strongly Disagree | It is redundant and creates confusion/ conflict   |
| Village  | Permanent | Voter     |  | Strongly Disagree | Duplication of services and costs makes no sense at all. One government for the island/township seems best at this time.  |

**Island too small to need 2 forms**

|          |          |           |       |  |                     |
|----------|----------|-----------|-------|--|---------------------|
| Township | Seasonal | Non Voter | Agree |  | Small area to cover |
|----------|----------|-----------|-------|--|---------------------|

|          |           |           |                |  |  |
|----------|-----------|-----------|----------------|--|--|
| Township | Seasonal  | Non Voter | Agree          |  | It seems that village issues are decided by a small group of business owners and a few village residents that don't represent the views of all the property owners and residents on the island.  |
| Township | Seasonal  | Non Voter | Agree          |  | Their are so few people that live in the village, but their decisions affect everyone  |
| Township | Permanent | Voter     | Agree          |  | Though it's a very tricky balance, it will be impossible for the village to continue to function with so few people living in it. So we need to decide future development of the entire Island   |
| Township | Permanent | Voter     | Agree          |  | There is not enough people living in the Village for the council seats, mayor or village administrator, which was suppose a person living within the village limits  |
| Township | Permanent | Voter     | Agree          |  | It is a small place to have two forms of government. Many of the issues that are discussed and voted on for the township and/or village impact both. Also, it is hard to get government officials in the village since they have to reside there, so it is a small pool of people and doesn't comprehensively represent the businesses located downtown. The decisions made in the village also impact the township, so it makes more sense to make decisions together. However, the reason I did not select "Strongly Agree" is because I would like to hear more of how this would happen before I commit to the idea. I also understand that the township and the village face many very different issues which is why there are two to start with, so I want to know how this will be implemented and how decisions will be handled when they are more specific to either the downtown area or the township. |
| Township | Permanent | Non Voter | Agree          |  | The island is too small to not have one government that works together.  |
| Township | Seasonal  | Non Voter | Strongly Agree |  | Having two governments in such a tiny area is dumb. Too much duplication of effort. Tail wags the dog. Village wags the township.  |
| Township | Seasonal  | Non Voter | Strongly Agree |  | The island seems to be small enough that one governing body would be more efficient and better serve all.  |
| Township | Seasonal  | Non Voter | Strongly Agree |  | Island not that big to have two police forces  |
| Township | Seasonal  | Non Voter | Strongly Agree |  | Having a strong government is good we are a little island need to good people looking after it   |
| Township | Seasonal  | Non Voter | Strongly Agree |  | I feel the bifurcated government does not make sense for such a small population and area. One government would provide opportunity to address entire island issues  |
| Township | Permanent | Voter     | Strongly Agree |  | The island is such a small area, it's crazy that I'm unable to vote for mayor or village council which has a huge affect on the island as a whole. It's wild that there are 2 different governing bodies for one 3x5 mile island. The other bass islands should have thier own governments, since they have different needs and issues then south bass.  |
| Township | Permanent | Voter     | Strongly Agree |  | Less items of importance get prioritization by the separation of government. The island is too small to need two different forms of government, especially when what is happening in one part (township or village) greatly affects the other no matter what because we are such a small community.  |
| Township | Permanent | Voter     | Strongly Agree |  | It just doesn't make sense, for the size of this island, to have separate governments. I feel we should be one entity. When you live in the township you can't vote for things that effect you.  |
| Township | Permanent | Voter     | Strongly Agree |  | A single form of government is the only way we can accomplish our common goals. The island is too small for 2 governments and the bureaucracy that comes with additional government.   |

|          |           |           |                |                   |   |
|----------|-----------|-----------|----------------|-------------------|---|
| Township | Seasonal  | Voter     | Strongly Agree |                   | I believe that the island is too small for two different governments. The residents of the entire township are effected by the happenings in the village and should have a say in what happens there. Also the residents of the township in many cases have businesses in the village and should be heard equally.  |
| Township | Seasonal  | Voter     | Strongly Agree |                   | The island is too small to have two governments. One government would create a more unified front and potentially save money. Having two police forces on this small island is ridiculous   |
| Township | Seasonal  | Voter     | Strongly Agree |                   | Too small of area for 2 forms of government   |
| Village  | Permanent | Voter     | Strongly Agree |                   | An island this size DOES NOT need two separate forms of government, period. It hampers our progress. Need to work TOGETHER as one, not budding heads and wasting resources.   |
| Village  | Permanent | Voter     | Strongly Agree |                   | This island is too small to support two governments. We do not have enough residents to comprise a competent village council. Their inability to effectively run the village government prevents us from being the quality island that we could be.   |
| Village  | Permanent | Voter     | Strongly Agree |                   | I believe we are a small enough island who have similar goals which would be better reached by working together.  |
| Township | Seasonal  | Non Voter |                | Disagree          | Too much governance in one small place  |
| Township | Seasonal  | Non Voter |                | Disagree          | The island is small enough that a single form of government would reduce redundant services and offices. The entire island could be incorporated and this would solve that.   |
| Township | Permanent | Voter     |                | Disagree          | The island is small enough for one municipality.  |
| Township | Seasonal  | Voter     |                | Disagree          | We have a very small land area, and one local government entity should be able to handle issues for this small island.  |
| Township | Seasonal  | Non Voter |                | Strongly Disagree | We are a small island that is not served well by our dual, current system. Not enough residents in the Village to serve office. The most recent policing issue where the Township Trustees ignored the voice of the the voters and residents to pay an excessive amount to the Sheriff at the cost of a diminished Village PD.  |
| Township | Seasonal  | Non Voter |                | Strongly Disagree | The island doesnt have a population that supports 2 governments, or a village level incorporation in general. The village should be dissolved and the township of put in bay should then control the entire island. This lack of population would not allow for a village designation and for good reason. The electorate pool is severely limited and opens up to potential corruption.  |
| Village  | Seasonal  | Non Voter |                | Strongly Disagree | It's a small island; one is enough.   |
| Township | Permanent | Voter     |                | Strongly Disagree | It seems like a small number of people are making the big decisions about the downtown area, which is where our business is but we have no say about since we don't live in the village.  |
| Township | Permanent | Voter     |                | Strongly Disagree | It is unnecessary for the island. The Village does not have enough year round residents to pull from in order to give enough options and diversity to elected officials. It also seems ridiculous that business owners who do not live in the village retain no voting powers even though they are property owners and make their living from the village. As businesses grow, less village housing will be available for residents especially as many homes turn into housing or rentals |
| Village  | Permanent | Voter     |                | Strongly Disagree | So. Bass is just too small to have two forms of government. The competition between the two is too waste full.  |

|          |           |           |                |                   |  |
|----------|-----------|-----------|----------------|-------------------|--|
| Village  | Permanent | Voter     |                | Strongly Disagree | We do not have enough of a fulltime population base for 2 governments. Many business owners live in the township and cannot vote on village issues. People in the township are effected by what happens in the village and they should have a say in that. With 1 government we will have a larger group of people to pick from. |
| Village  | Permanent | Voter     |                | Strongly Disagree | Although there are benefits to having a "Village", that can pass laws and a "Township", that is eligible for different forms of funding from the State and County there simply are not enough people in the Village to govern in an effective manner.  |
| Village  | Seasonal  | Voter     |                | Strongly Disagree | The island is too small to justify 2 forms of government. In particular the village has too few residents who are eligible to hold office.   |
|          |           |           |                |                   | <b>Need better representation</b>  |
| Township | Seasonal  | Non Voter | Agree          |                   | I want the governing body to be accessible from my place in the county   |
| Township | Permanent | Voter     | Agree          |                   | I see why the upper islands might not want to all have one government- but it seems silly on PIB to have two. Plus the small amount of people living in the village will create a problem finding council members and mayors in the future   |
| Township | Permanent | Voter     | Agree          |                   | If we were all incorporated as a village, we would have a lot more control of our quality of life. We are all effected with the same problems and not all have a say or a vote to make things better.  |
| Township | Seasonal  | Non Voter | Strongly Agree |                   | The village has few residents to fill government's positions. Most professional residents live in township. Why let Ottawa commissioner control 80% of the land mass. The personal business interest would be reduced and the best interest of all citizens would be improved.   |
| Township | Seasonal  | Non Voter | Strongly Agree |                   | Bigger pool of potential candidates for political office. Better represent the interests of people living in the township.   |
| Township | Permanent | Voter     | Strongly Agree |                   | Village needs a larger voter pool.   |
| Township | Permanent | Voter     | Strongly Agree |                   | To allow new leadership to the village   |
| Township | Permanent | Voter     | Strongly Agree |                   | More participation, more equity, more value, better public services.   |
| Township | Permanent | Voter     | Strongly Agree |                   | Township residents should be able to vote and/or have the option to run for mayor.   |
| Village  | Permanent | Voter     | Strongly Agree |                   | I prefer a single form because there are not enough residents in the Village to warrant a government. We should all be voting on the same things.  |
| Township | Seasonal  | Non Voter |                | Disagree          | Township residents should have more control around activities within the Village since those activities impact the whole island.   |
| Township | Permanent | Voter     |                | Disagree          | Better with one-more people available to govern and be on zoning boards. More control  |
| Township | Permanent | Voter     |                | Disagree          | I would be interested in running for council but i don't live in the right area  |
| Township | Seasonal  | Voter     |                | Disagree          | Too few candidates live in the village any more. The village government seems to be all business and tourist items. The township seems more resident friendly but does not have the strong monetary basis that the village has.  |

|          |           |           |                |                   |  |
|----------|-----------|-----------|----------------|-------------------|--|
| Village  | Seasonal  | Voter     |                | Disagree          | Multiple..<br>1-Commercial property has taken over the residential<br>2-Too few residents in the village.. Most island people live in the township..<br>3-The village is controlled by a small group of the same people.<br>4-Need opportunity for new village leadership, from the township residents<br>5-Duplicates services and increases cost<br>6-Restricts making new laws/rules to govern the whole island |
| Township | Seasonal  | Non Voter |                | Strongly Disagree | One form of government would be so much better. I would hope water lines and sewers would be extended into the township. More services would be available to all islanders and there would be more people eligible for elected positions in the Village, if we were all in the Village. The Township has no say in what the Village does.  |
| Township | Seasonal  | Non Voter |                | Strongly Disagree | There are not enough year-round residents in the Village to ensure that City government is representative of the entire island. The issue with two sets of law enforcement is likely going to be troublesome this summer.  |
| Township | Permanent | Voter     |                | Strongly Disagree | Everyone who lives on the island should be able to vote for the mayor.   |
| Township | Permanent | Voter     |                | Strongly Disagree | it over complicates things and excludes a huge portion of islanders from being able to vote on issues that still effect them even if they don't live in the village  |
| Township | Permanent | Voter     |                | Strongly Disagree | I feel that what happens in the Village will affect the Township, and vice-versa. We should all be able to vote for Mayor, etc.  |
| Village  | Permanent | Voter     |                | Strongly Disagree | The majority of island residents live in the Township, but their quality of life is severely impacted by decisions made by Village Council.....a group where they have NO representation. Also, they number of Village residents who are willing/able to serve on Village Council is small and likely shrinking.....meaning that we will continue to get more of the same for many years.                          |
| Village  | Permanent | Voter     |                | Strongly Disagree | I feel the island is better served with all island residents having say so over the island as a whole. The island as a village would be a benefit to keep tax money on the island and give everyone on the island to vote for or run for village council and mayor   |
|          |           |           |                |                   | <b>Conflict between 2 forms is harmful</b>   |
| Township | Seasonal  | Non Voter | Agree          |                   | Seems a bit disjointed at the moment. But having Middle Bass as same government with South Bass does not seem good either.   |
| Township | Permanent | Voter     | Agree          |                   | It seems that the last few years the two government system can not get along. This is not a good image for the islands. There are too few people in the village to find reliable candidates. The village also seems to have a few lawsuits pending that will deplete the budget. The township seems to have a better working relationship with outside agencies.   |
| Village  | Permanent | Voter     | Agree          |                   | To make the island more cohesive.  |
| Village  | Seasonal  | Voter     | Agree          |                   | I think we should be working more closely and effectively together instead of arguing  |
| Township | Permanent | Non Voter | Strongly Agree |                   | One governing body, the way it is currently is not working. To many issues with lack of parking among other things and no accountability on behalf of either party   |

|          |           |           |                |                   |  |
|----------|-----------|-----------|----------------|-------------------|--|
| Township | Seasonal  | Non Voter | Strongly Agree |                   | I feel that the village council and township trustees need to be in agreement for the betterment of the islands as a whole. I feel a lot of the village issues affect the township, yet they, (the township) do not get a vote on issues for the village.<br>I don't think the sheriff should have been brought in for the township. Fiscally it does not make sense. We need better leadership in the police department. The police department is an embarrassment to the islands.  |
| Township | Seasonal  | Non Voter | Strongly Agree |                   | Living in the Township for 35 years and watching the Village and its business' destroy the island. We have no say how there rules have effected the entire island.   |
| Township | Seasonal  | Non Voter | Strongly Agree |                   | Because I don't like the bickering between the village and the township.   |
| Village  | Seasonal  | Non Voter | Strongly Agree |                   | The current system is dysfunctional.   |
| Village  | Seasonal  | Non Voter | Strongly Agree |                   | It needs to be cohesive.   |
| Village  | Seasonal  | Non Voter | Strongly Agree |                   | Currently the system of multiple governing entities on such a small area is causing extreme conflicts between residents, businesses, tourist functions, police enforcement, housing, park systems... because they interests are in conflict over such a small area.<br>South bass island is not a state, nor is it a country it is a small island. And PutInBay is a village, not a large metropolis/city. Because of the expansion of High income residents, and the increasing number and locations of business and facilities outside of the village, the regulating government needs to consolidate to help alleviate the various conflicts. |
| Township | Permanent | Voter     | Strongly Agree |                   | The island needs to get to a "city" status that opens up many part of the ORC. With the police/sheriff situation it is very clear the two governments can't work together to solve problems. If anything, it is making the problem worse. PIB has issues, and these issues can be solved but we need to unify the island. As a township residence, I cannot vote on village issues even though it has a direct effect on all of us. One government makes one voice to solve problems.  |
| Township | Seasonal  | Non Voter |                | Disagree          | Less government, more cooperation  |
| Township | Permanent | Voter     |                | Disagree          | Having one set of laws/regs for the entire island would help curb some of the problems that are in the township if the entire island was in the village.   |
| Township | Seasonal  | Voter     |                | Disagree          | The village has a larger budget and dominates island life for the average visitor. If were going to make meaningful change then that will require village participation. As it stands, the village is dominated by a small group of "elites" who represent a few powerful families and bar owners. The only way to make real change is to introduce more competition, but that clashes with the interests of the elites  |
| Village  | Permanent | Voter     |                | Disagree          | I understand this has been around for years and many people have tried to unify them before. But it seems as if they are constantly butting heads, disagreeing on big island issues, especially when the village is run by many part time summer residents who only care about partying.   |
| Township | Permanent | Voter     |                | Strongly Disagree | The political entities are not collaborative and duplicate resources.  |
| Township | Permanent | Voter     |                | Strongly Disagree | Too much "competition" between them; duplicity costs tax payers  |

|          |           |           |                |                   |  |
|----------|-----------|-----------|----------------|-------------------|--|
| Township | Seasonal  | Voter     |                | Strongly Disagree | There should be one government that decides for the island. Having two that are in disagreement and working against each other is not helping which is why our law enforcement situation is a mess right now.  |
| Village  | Permanent | Voter     |                | Strongly Disagree | The Village Council is out of control. The right hand doesn't know what the left hand is doing (think parking on Delaware)! No residential areas left in Village (less than 100 voters). All compromised. Village tries to run whole island. As a matter of fact, your first question has an error. I do not live on Put-in-Bay Island. I live on South Bass Island, in the township of Put-in-Bay. There is also a bankrupt Village on South Bass Island called Put-in-Bay as well, for now at least. |
|          |           |           |                |                   | <b>Other</b>   |
| Township | Seasonal  | Non Voter | Agree          |                   | There are always disadvantages to having Middle Bass government controlled by Put-in-Bay Township, but for the most part there are advantages. It works fairly well as is but is not perfect. Middle Bass needs more representation.   |
| Village  | Permanent | Voter     | Agree          |                   | The village does a good job of it now  |
| Village  | Permanent | Voter     | Agree          |                   | Being a new full-time resident to the island, I am just learning how the island government works, so I am not prepared to further answer this question.  |
| Township | Seasonal  | Non Voter | Strongly Agree |                   | Police presence important  |
| Township | Seasonal  | Non Voter | Strongly Agree |                   | That is my preference.   |
| Township | Seasonal  | Non Voter | Strongly Agree |                   | Good for all   |
| Village  | Seasonal  | Non Voter | Strongly Agree |                   | no sense to have two   |
| Township | Permanent | Voter     | Strongly Agree |                   | Lived here long enough to know.  |
| Township | Seasonal  | Voter     | Strongly Agree |                   | The current set up is ridiculous.  |
| Township | Seasonal  | Voter     | Strongly Agree |                   | Times have changed and work together as one entity.  |
| Township | Seasonal  | Voter     | Strongly Agree |                   | I feel it would benefit all.   |
| Village  | Permanent | Voter     | Strongly Agree |                   | Because having one for the village and another for the township doesn't make much sense to me.   |
| Village  | Permanent | Voter     | Strongly Agree |                   | Our island needs a unified government instead of two   |
| Village  | Permanent | Voter     | Strongly Agree |                   | People who own businesses in the village should be allowed to vote in the village, rather than Banyan Cove residents.  |
| Village  | Permanent | Voter     | Strongly Agree |                   | The one government is needed   |
| Township | Seasonal  | Non Voter |                | Disagree          | I don't understand how one can have two forms of government any place.   |
| Township | Seasonal  | Non Voter |                | Disagree          | One governing body could adequately represent the entire Bass Islands  |

|          |           |           |  |                   |   |
|----------|-----------|-----------|--|-------------------|---|
| Township | Permanent | Voter     |  | Disagree          | That is how I feel  |
| Township | Seasonal  | Non Voter |  | Strongly Disagree | The village has too much control of life on this island A few families control everything for their financial assets. It's outrageous |
| Township | Seasonal  | Non Voter |  | Strongly Disagree | We need to get rid of the Mayors court. There is too much chance for corruption   |
| Township | Seasonal  | Non Voter |  | Strongly Disagree | Two forms of government is ridiculous on such a small island  |
| Village  | Seasonal  | Non Voter |  | Strongly Disagree | What two forms of government are we talking about? Is the question refering to Township and Village? Local and state? What?           |
| Village  | Seasonal  | Non Voter |  | Strongly Disagree | Yes   |
| Township | Permanent | Voter     |  | Strongly Disagree | I am now the only full Year resident of this island. 2 years running. I can govern myself.  |

**NEUTRAL**

**Don't Know Enough to Have an Opinion**

|          |           |           |                            |  |  |
|----------|-----------|-----------|----------------------------|--|--|
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |  | Haven't looked into the pros and cons  |
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |  | I don't feel I've educated myself enough with this topic to have an opinion.   |
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |  | I don't have an opinion on this.   |
| Village  | Seasonal  | Non Voter | Neither Agree nor Disagree |  | I don't feel I have enough knowledge to have an opinion.   |
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |  | I would need more data to make an informed comment. In general the perception is that MBI does not receive equal services, particularly quick EMT access, however I can't make a stronger statement without a fair review of the data, i.e. expenditures by category island to island... |
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |  | I lack enough knowledge  |
| Township | Permanent | Voter     | Neither Agree nor Disagree |  | Because I have not studied the long term effects of having just a single government, so I really cannot choose one over the other. Ideally, one form makes sense.....  |
| Township | Permanent | Voter     | Neither Agree nor Disagree |  | I don't have enough information  |

|          |          |           |                            |  |  |
|----------|----------|-----------|----------------------------|--|--|
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | I have no insight into this matter   |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | I need to do more research on the pros and cons.                                 |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | Because I do not have enough knowledge to have an opinion on this                |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | Unsure of the overall impact either way.   |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | I have not done enough research on this topic                                    |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | Not enough information   |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | Don't know.  |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | Not sure   |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | no opinion at this time  |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | No real input  |
| Village  | Seasonal | Non Voter | Neither Agree nor Disagree |  | Not informed enough to make decision   |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | Unsure of the advantages / disadvantages   |
| Township | Seasonal | Non Voter | Neither Agree nor Disagree |  | I don't know what that means specifically. MBI separate from PIB? It's not clear |

|          |           |           |                            |  |  |
|----------|-----------|-----------|----------------------------|--|--|
| Township | Permanent | Voter     | Neither Agree nor Disagree |  | I would have to have more information to make a decision about change.   |
| Township | Permanent | Voter     | Neither Agree nor Disagree |  | Need more information  |
| Township | Permanent | Voter     | Neither Agree nor Disagree |  | Don't know enough of the details of the the pros and cons of the issue   |
|          |           |           |                            |  | <b>Have additional questions</b>   |
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |  | I'm just not sure about this. The village and township have different needs, but many of the same concerns from what I've observed (police protection, too many golf carts. I would be interested to know how many businesses are owned by islanders and how many are owned by outsiders from the mainland   |
| Township | Seasonal  | Voter     | Neither Agree nor Disagree |  | While it would beneficial in some ways, downtown and business districts are too different from residential/twp areas. Same rules/ordinances/etc overall would not be practical nor wanted. And after all, what would we do for entertainment without the political three ring circus that goes on currently?   |
| Township | Seasonal  | Voter     | Neither Agree nor Disagree |  | I think this is a poorly considered question that deserves little weight in shaping priorities. Island governance is a complex issue that deserves a more complete discussion about the ways a single government could be accomplished and the ramifications of doing so. Does/can the village expand to include all the islands or do we become just a township, or something else altogether? How would this affect taxes levied and revenues received from the state and county? What about codes and regulations, etc. etc.<br><br>The current structure seems inefficient, but I need to know a lot more before I would express an opinion.   |
| Village  | Permanent | Non Voter | Neither Agree nor Disagree |  | I gave this rating because I don't know enough about the issue to have an informed opinion of it. If there was a single form of government on the island, the village and township wouldn't have to work together, so things would be more efficient since there wouldn't be two government bodies to have to do things through. However, I don't know what this single government body would look like, or how its performance would differ from the system Put-in-Bay has now. I also don't know how government works on Middle Bass and North Bass Islands. If all three islands became one city, this could result in inefficiencies because resources would have to be spread and allocated across three islands instead of just Put-in-Bay. Put-in-Bay produces much more tax revenue than the other two islands, so if they became one city than Put-in-Bay's taxes would be going to the other two islands. If this doesn't result in an increase in my taxes due to the increased revenue from the other two islands than I guess I'm okay with it, but if it does I'm opposed to it unless there will be nice benefits to this, which I cannot think of right now. |

|          |           |           |                            |  | <b>Actually prefer 1 form</b>  |
|----------|-----------|-----------|----------------------------|--|--|
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |  | <p>I prefer a single Township form of government. I fear a mayor/council form of government would cause the entire island to become nothing more than a place for rowdy bars. It seems like the downtown business owners control the police, and hence, what is allowed/not allowed on the island.</p> <p>The down side to a Township form of government would be the lack of enforcement when it comes to property upkeep. My biggest concern living on the island is that township property owners are allowed to stockpile abandoned cars, boats, trailers, trash, etc. it's an eyesore and a health hazard. Ohio has ordinances about unregistered vehicles and defacto "junk yards". I don't want to go so far as adopting an exterior maintenance code, but I wish we could politely encourage people to get rid of their trash and maintain their homes to the extent practical. Many islands have "clean up days" and we sorely need them.</p> |
| Village  | Seasonal  | Non Voter | Neither Agree nor Disagree |  | It would be nice to have one governing group, but the village and the township have different views and ideas of what is better for the island   |
| Township | Permanent | Voter     | Neither Agree nor Disagree |  | It would make sense to have one government on SBI, but I don't see a reasonable way that would ever happen anytime soon. Township is more than SBI and has to consider other islands. Village has its own financial/legal problems that might cost more to those in the township.  |
| Township | Permanent | Voter     | Neither Agree nor Disagree |  | I am not knowledgeable enough to say for certain, but would typically say less governing is better, so one not two forms, However, I believe one governing body would cater heavily to the Village and business community needs and less to the general population.  |
|          |           |           |                            |  | <b>Other</b>   |
| Village  | Seasonal  | Non Voter | Neither Agree nor Disagree |  | Don't care   |
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |  | the PIB Govt has not impacted us at our MBI property....seems to be a confusion though for the PIB people wiht one govt for the Village and another for the rest of the island. what I would like to see is a Trustee Board that actually responds to MBI people when they are contacted with issues on MBI.   |
| Township | Permanent | Voter     | Neither Agree nor Disagree |  | There are pros and cons to each type of government that we have.   |
| Township | Permanent | Voter     | Neither Agree nor Disagree |  | Neutral  |
| Township | Permanent | Voter     | Neither Agree nor Disagree |  | I've heard positive and negatives to one govt.   |
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |  | Both seem to be working well.  |

|          |           |           |                            |                            |  |
|----------|-----------|-----------|----------------------------|----------------------------|--|
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |                            | I didn't know there were 2 forms on the island.  |
| Township | Seasonal  | Non Voter | Neither Agree nor Disagree |                            | Don't understand the question  |
| Village  | Seasonal  | Non Voter | Neither Agree nor Disagree |                            | Seems ok as is   |
| Village  | Seasonal  | Non Voter | Neither Agree nor Disagree |                            | At times two forms is helpful but from my pov, it doesn't seem to work as well on the island           |
| Township | Permanent | Voter     | Neither Agree nor Disagree |                            | do not get involved with politics  |
| Township | Permanent | Voter     | Neither Agree nor Disagree |                            | It's a wait and see situation  |
| Township | Permanent | Non Voter | Neither Agree nor Disagree |                            | I'm underage and my involvement in that is minimal.  |
| Township | Permanent | Non Voter | Neither Agree nor Disagree |                            | no comment   |
| Township | Permanent | Non Voter | Neither Agree nor Disagree |                            | I think it could go either way.  |
| Township | Seasonal  | Non Voter |                            | Neither Agree nor Disagree | because there are pros and cons to both sides of that issue which makes it tricky to answer either way |

**PREFER TWO FORMS OF GOVERNMENT**

**Needs between Village and Township are different**

|          |           |           |          |  |  |
|----------|-----------|-----------|----------|--|--|
| Township | Permanent | Non Voter | Disagree |  | Because the Townships needs is very different from the Village.  |
| Township | Seasonal  | Voter     | Disagree |  | Property owners have two completely different lifestyle objectives. It would be difficult to manage to these different lifestyle objectives. While on the surface it may appear to make sense especially in the area of cost savings. There would be some cost savings with one type of government but more costs with the other type of government. Currently the two governments could do a better job of sharing services in a more efficient way. Even that is difficult because of the competing objectives. Even with one government those competing objectives would still be there. To meet those competing needs cost would have to increase. |

|          |           |           |                   |                |  |
|----------|-----------|-----------|-------------------|----------------|--|
| Township | Permanent | Voter     | Strongly Disagree |                | The Township & Village need to be seperate.  |
| Township | Permanent | Voter     | Strongly Disagree |                | seperation of village to all all islands is good   |
| Township | Seasonal  | Non Voter |                   | Agree          | The Township has similar but not the same needs as the Village. It should be mutually symbiotic, though. There should be mutual cooperation in infrastructure.   |
| Township | Seasonal  | Non Voter |                   | Agree          | The village has most of the businesses and issues  |
| Township | Seasonal  | Non Voter |                   | Agree          | Values of village business owners seem so different from township property owners. More, more, more. Pack in more people and sell more booze. Downtown PIB has become a very unwelcoming place, a party place on weekends.   |
| Township | Permanent | Voter     |                   | Agree          | I think that the upper islands should be part of the Township to represent a variety of island uses and people. I think that the village is totally different from the rest of the island due to the businesses that operate there. The advertising of these businesses attract a different kind of visitor. The township has a more residential population that don't necessarily need or use the village businesses. It is difficult to find parking and businesses that aren't crowded with visitors. |
| Township | Seasonal  | Non Voter |                   | Strongly Agree | The village is a business, looking to make as much money in 4 months as it can. The township is for residents who enjoy the nature of the island.  |
| Township | Permanent | Voter     |                   | Strongly Agree | the village is a burden to the people who live in the township.  |
| Township | Permanent | Voter     |                   | Strongly Agree | The village is more tourist oriented and requires different governing than the township. The township encompasses all the islands and it would be unfair to the other islands to involve them in village issues.   |
| Township | Seasonal  | Non Voter |                   | Strongly Agree | The village and township have totally different priorities and business owners would dictate policies.   |
|          |           |           |                   |                | <b>Am okay with how things run now</b>   |
| Township | Seasonal  | Non Voter |                   | Agree          | Standard   |
| Township | Permanent | Voter     |                   | Agree          | I am fine with how things are currently handled  |
| Township | Permanent | Voter     |                   | Agree          | it has been this way for years, so why change it now. It would really work IF the 2 forms of government would have monthly meetings together.  |
|          |           |           |                   |                | <b>Other</b>   |
| Township | Seasonal  | Non Voter | Disagree          |                | There is a cost to allowing single form of government. The streets will suffer because now the STATE will pay for some of the roads, but will not pay for the roads if we are a single form of government. That is just one example.   |
| Township | Permanent | Voter     | Disagree          |                | Because the people in our government are crooks  |
| Township | Seasonal  | Non Voter | Strongly Disagree |                | There is to much political influence from town business, especially those who primarily cater to tourists.   |
| Township | Seasonal  | Non Voter | Strongly Disagree |                | if I am interpreting the question correctly then I guess I feel like everything that happens on the island should be up to vote for all homeowners. Regardless of whether it is happening in the village or the township, it effects everyone that lives here.   |
| Township | Permanent | Voter     | Strongly Disagree |                | I do not want to incur more taxation because the village is fiscally irresponsible.  |

|          |           |           |                   |                |   |
|----------|-----------|-----------|-------------------|----------------|---|
| Township | Permanent | Voter     | Strongly Disagree |                | The businesses of downtown benefit the most from tourist dollars, yet most are exempt from the Resort Tax. The negative issues created by those businesses (EMS calls, police responses, vandalism, trash, etc.) should be the responsibility of those businesses that are responsible or by the people who come here. Other tourists areas have implemented a Head Tax to recoup revenue. Perhaps island leaders need to look into this idea. Township residents are not willing to cover the increased costs of tourist strain to our island when we stand to gain little to no benefits. |
| Village  | Seasonal  | Non Voter |                   | Agree          | I prefer not to comment on this section   |
| Village  | Permanent | Voter     |                   | Agree          | I have been here for almost 40 years. The village has traditionally made choices that do not not serve the township   |
| Township | Seasonal  | Non Voter |                   | Strongly Agree | Because if it became one government I feel the money would be spent on downtown rather than all over.   |
| Township | Seasonal  | Non Voter |                   | Strongly Agree | I do not see the advantage of "One Island, One Government" for the Township residents on South, Middle, or North Bass Islands. Much of the Village government's energy is spent dealing with the needs/problems/funding (infrastructure, police, EMS, parking, traffic, noise, business approvals, etc.) to support the large weekend crowds filling the downtown businesses. The Township has more residents; yet, under one government, it could be tempting to redistribute Township funds and focus to the Village.   |
| Township | Permanent | Voter     |                   | Strongly Agree | Checks & balance it's what makes the American democracy   |
| Township | Permanent | Voter     |                   | Strongly Agree | Living in the township, I don't want to inherit the problems created by the village   |
| Township | Permanent | Voter     |                   | Strongly Agree | The village government is an embarrassment to our township, including the upper islands and I think it would be a shame to financially bail the millions of dollars there are in debt because they have cater to commercialism. They have already pushed the village residents out to the township, now where? Off the island? No thanks. Keep downtown mess right where it's at and leave are twp thw way it is. A well oiled machine!   |
| Village  | Seasonal  | Voter     |                   | Strongly Agree | Need checks and balances. Singular government is to clicky.   |

**Do you have any ideas for what we can do for the school to help attract young families to want to live here? What are all of the things we can do to attract more young families to live here year round?**

**Need Affordable Housing**

|          |           |           |   |
|----------|-----------|-----------|---|
| Village  | Permanent | Voter     | 10-15 year Tax abatement to build or completely refurbish homes.  |
| Township | Permanent | Voter     | A lower cost of living would enable young families to have the ability to live year-round here, as well as more full-time work opportunities and facilities to improve the quality of life of people who live here year-round.  |
| Township | Permanent | Voter     | affordability of housing, access to commute or work from home, more extra curricular activities   |
| Township | Seasonal  | Voter     | Affordable and available housing. Attempt to market the island to family tourism and increase available family activities.  |
| Township | Permanent | Voter     | affordable housing  |
| Township | Permanent | Voter     | Affordable housing  |
| Township | Permanent | Voter     | Affordable housing  |
| Village  | Permanent | Voter     | affordable housing  |
| Township | Permanent | Voter     | Affordable housing  |
| Township | Permanent | Voter     | Affordable housing We have a great school   |
| Village  | Permanent | Voter     | Affordable Housing & Daycare Options  |
| Village  | Permanent | Voter     | Affordable housing and activities for kids,   |
| Township | Permanent | Voter     | Affordable housing and daycare are the biggest issues keeping young families from living on the island year round. It's too expensive to live here and not work full time, and it's next to impossible to work full time with no daycare options. The school should look into subsidizing a daycare.  |
| Township | Permanent | Voter     | Affordable housing and daycare. That being said, no one wants to sell below market value, and families don't want to pay what daycare would cost or if starting a business could make a profit with the regulations of daycare. If someone could make money doing it, there would be daycare already. |
| Village  | Permanent | Voter     | Affordable housing and decent paying jobs that allow a family to survive the ever increasing expenses of "Island Life".   |
| Township | Seasonal  | Non Voter | Affordable housing and employment with livable wages  |
| Township | Permanent | Voter     | affordable housing and medical coverage   |
| Township | Seasonal  | Non Voter | Affordable housing and publicity.   |
| Village  | Permanent | Voter     | Affordable housing and yesr-round work availability are probably most important.  |
| Township | Permanent | Non Voter | Affordable housing instead of so many hotels and no housing for employees. All property being overpriced and turned into short term weekly rentals  |
| Township | Permanent | Voter     | Affordable housing is key. I like the idea of a housing credit for workers, which would help. But I think in general, that is the main issue. Also, daycare and health care I think are barriers for young families. If we had a daycare and a true medical clinic, it would help tremendously.       |
| Township | Permanent | Voter     | Affordable housing is problem   |

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Permanent | Voter     | Affordable housing would be a big one.<br>More access to activities like more HS sports. Tennis, swimming, track and field. (Sports that don't need high numbers for teams)   |
| Township | Permanent | Voter     | Affordable housing would help to keep the young families that we already have, and attract more families to come.   |
| Township | Permanent | Voter     | Affordable housing<br>Year round job opportunities  |
| Township | Permanent | Voter     | Affordable housing!!!!!!!!!! Year round employment. The development of regulations across the island that are conducive to raising families year round i.e. Noise Ordinances in all island areas, speeding on back roads and streets. Folks won't want children here if it continues to be an island where children cannot play (be outside) during the summer because of the environment |
| Township | Permanent | Voter     | Affordable housing, good year round affordable transportation/fright & good paying year round jobs.   |
| Township | Permanent | Voter     | affordable housing,think the school is doing fine   |
| Township | Seasonal  | Voter     | Affordable housing. More youth programs. More community events.   |
| Township | Permanent | Voter     | Affordable housing. Not only affordable, but housing segregated from rentals.   |
| Village  | Permanent | Voter     | Affordable housing.<br>community rec or school with before/after school activities, field trips<br>Community sport: tball, soccer, swimming<br>Make known small class sizes, individual attention   |
| Village  | Permanent | Voter     | Affordable housing; good pay.   |
| Township | Seasonal  | Voter     | Apartment complex. Housing extremely expensive  |
| Township | Seasonal  | Voter     | Better amenities like a nicer grocery store and a nice restaurant. Affordable housing   |
| Township | Seasonal  | Non Voter | Better housing and better paying jobs for the parents   |
| Township | Permanent | Voter     | cheaper housing, maybe we can provide financial help or planned housing for year round new people   |
| Township | Seasonal  | Voter     | Definitely affordable house, young families cannot afford to live here.   |
| Township | Permanent | Voter     | Ease zoning restrictions so young families can start a family business without incurring the huge expense of commercial property on top of their home mortgage.   |
| Township | Permanent | Voter     | Give them affordable housing opportunities.   |
| Village  | Permanent | Voter     | Have affordable housing.  |
| Township | Permanent | Voter     | Have more affordable housing.<br>Provide good paying jobs.<br>We have good schools we should maybe promote them more.   |
| Village  | Permanent | Voter     | housing affordable  |
| Township | Permanent | Voter     | Housing needs to be affordable.   |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Permanent | Voter     | I don't see how you can expect families to move here with the cost of buying a home. Any affordable housing seems to be immediately bought up by a few big businesses for their employee housing. Maybe these businesses could consider building another dorm instead of always buying up the smaller houses, which then sit empty and not taken care of for half the year.  |
| Township | Seasonal  | Non Voter | It is all about housing. Consider zoning restrictions to require rentals be at least 30 days, or limited per year. Every new property with the possibility to bring new residents ends up overflowing with bachelor parties. Tri-Motor is overrun and Banyan Cove is probably not far behind. Offer developers incentives to build residential units rather than rentals.  |
| Village  | Permanent | Voter     | It is not the school, it is lack of affordable housing and early child care.   |
| Township | Seasonal  | Non Voter | It's all about affordability   |
| Village  | Seasonal  | Voter     | It's too expensive - too isolated in the winter. No easy answer to this.   |
| Township | Seasonal  | Non Voter | Less expensive housing, publicize scholarships for graduating seniors  |
| Village  | Seasonal  | Non Voter | lower property taxes<br>promote a safe school environment<br>promote family involvement<br>compare school state testing/ACT scores to state average scores if above average  |
| Township | Permanent | Voter     | Lower the property taxes.  |
| Village  | Seasonal  | Non Voter | Make housing affordable, Provide more of a Family atmosphere, which includes more of the island rather than just the village. More affordable living/housing would provide for more daycare as well, and elder care. This housing, and general attraction to families through a sense of island community, is not possible until the Island is governed under one single entity that provides for the welfare of the entire island instead of a power struggle between entities. |
| Township | Permanent | Voter     | Make housing affordable. Every family that we know that has moved off island is because of not being able to find affordable housing. They like island life and would like to stay, but there is no where for them to live. They will never make enough in thier jobs to be able to afford it.   |
| Village  | Permanent | Non Voter | Make it affordable for families to live here   |
| Township | Seasonal  | Non Voter | More affordable housing  |
| Township | Permanent | Voter     | More affordable housing options to attract young families to the island.   |
| Township | Permanent | Voter     | More affordable housing options would increase opportunities for families to relocate here   |
| Township | Seasonal  | Non Voter | More affordable housing. Advertise how wonderful our schools are, scholarship opportunities, teacher to student ratios, our sports opportunities. The island has so much to offer young families, however, if they don't know about it, they can't or won't come.  |
| Village  | Permanent | Voter     | More affordable housing. Better internet capabilities. Child care options.   |
| Township | Permanent | Voter     | More affordable housing. Better paying jobs. Improve quality of jobs   |
| Township | Seasonal  | Non Voter | More affordable housing.<br>Year round employment opportunities.   |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Permanent | Voter     | More Low income housing and a skatepark  |
| Township | Permanent | Non Voter | More mental health openness and options. More friendly students, more sports open to all genders and ages. No girls, or guys teams. Housing costs less. More better ferry services.  |
| Township | Permanent | Voter     | more places to live which are cheaper if i had to guess  |
| Township | Seasonal  | Non Voter | Offer affordable housing options with more options for family activities in the winter months. Current internet options are pretty dismal as well as phone service (Verizon). Work with Verizon to add another tower!<br>Easier (more affordable?) access to the mainland year round, although being an island, I guess these difficulties are just the nature of the beast. |
| Township | Permanent | Voter     | Offer more affordable housing  |
| Village  | Permanent | Voter     | Our school is top quality. Students receive an outstanding education. I do not think that it is a factor in the inability for young families to be successful on the island. The price of and lack of available housing is the main reason why it is difficult for young families.   |
| Township | Seasonal  | Non Voter | Real estate prices would seem to be too high to attract young families.  |
| Township | Permanent | Voter     | Reliable housing and affordable for families. There are only so many months to earn money. The housing costs are not in the budget of most families with the wages earned. The rich get richer but the workers can not stay.   |
| Township | Permanent | Voter     | School is already top notch. You need to make this place affordable to the residents   |
| Township | Permanent | Voter     | see top issues<br><br>seriously - all?<br><br>Affordable!!! housing, medical, day care, etc  |
| Township | Seasonal  | Non Voter | The Island is far to expensive for young family's to live here.  |
| Township | Permanent | Voter     | The island needs more affordable housing that is available to all (i.e. not just employee housing) and more employment opportunities that are year round rather than just seasonal. We also need a daycare for families that already have kids or would like to.   |
| Township | Seasonal  | Non Voter | The property available is over valued. Young families can't afford to purchase or rent and provide a reasonable household income .   |
| Township | Seasonal  | Non Voter | The school is a fantastic benefit but the island is cost prohibitive.  |
| Village  | Permanent | Voter     | The school is fine, the problem is the lack of year round affordable housing.  |
| Village  | Permanent | Voter     | There seems to be a lack of affordable housing. The property going up for sale is being bought for employee housing or isn't affordable to the average family. Seasonal jobs do not pay enough.  |
| Township | Permanent | Voter     | We have an excellent school but to attract more families land and housing needs to be more affordable  |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Seasonal  | Voter     | Wow! That's a tough one. I think the school's off island activities is not only good for the students but help in spreading the word that there is more to PIB than just the downtown activities. Cost of living is very high especially the housing cost which are partly driven by the high real estate taxes. Tax issues are very difficult because they are mostly driven by the county which is made up of communities with much different circumstances then Put-in-Bay Township or Village.           |
| Township | Seasonal  | Non Voter | Young families need affordable housing and gainful employment, few of either readily available currently.  |
| Township | Seasonal  | Non Voter | although it does not effect me, the island is expensive for family's to be able to buy property and live here long term  |
|          |           |           | <b>Need Year-Round Jobs</b>  |
| Township | Seasonal  | Non Voter | <ol style="list-style-type: none"> <li>1. Increase business opportunities for new families. Many businesses are owned by the same families and there aren't good opportunities for income to be earned.</li> <li>2. Open House for the school</li> <li>3. Better option for travel off the island in the winter</li> <li>4. Offer more affordable housing to those who do live there year round. There are no homes even currently available.</li> </ol>   |
| Village  | Seasonal  | Non Voter | Allow more independent businesses.   |
| Township | Seasonal  | Voter     | Another question that needs a lot of work. We have a seasonal economy that must present a challenge for attracting more families as year-round residents. I doubt we can become a tech center or financial hub. We would need more well paying job opportunities, that provide the income, health insurance, retirement benefits and so forth to make it attractive. Housing costs are a challenge. And let's face it; it takes a special type of people to embrace the unique circumstances of island life. |
| Township | Seasonal  | Voter     | <p>Attracting year round families will require more than just a school. The school is actually the easier part. The key to attracting year round families is going all in on telework/remote work support. That requires good childcare, support services, entertainment, health care.</p> <p>The island may benefit from a periodic visiting pediatrician.</p>  |
| Village  | Permanent | Voter     | <p>Better Paying Jobs</p> <p>Better Housing</p> <p>A Broader Range of Winter Activities</p>  |
| Township | Seasonal  | Non Voter | <p>Establish small companies that pay good wages year round. Establish housing that is affordable have qualified teachers</p> <p>Young families don't want to expose there children to the south bass weekends.</p>  |
| Township | Seasonal  | Non Voter | For PIB, I would look towards technology focused infrastructure and tech incubator concepts to attract remote work families, create a mini-tech community. With that, some expansion of winter activities might be needed but I don't have a detailed suggestion on that. PIB has the base to do this, I don't see much more that could be done on MBI to significantly grow school age population which is why having the independent MBI school district is important.                                     |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Permanent | Voter     | Foster an environment for small businesses; trade businesses, service businesses, professional businesses, etc. Zoning laws need to be revised to permit home based businesses to operate and grow. Create light commercial district for businesses to operate. Regulate sale of homes to be used for seasonal rental. Affordable and adequate housing needs to be addressed.                      |
| Township | Permanent | Voter     | have more year round job opportunities; reasonable housing young families can afford;  |
| Village  | Permanent | Voter     | Have more year-round jobs  |
| Township | Seasonal  | Non Voter | Have to have attractive jobs.  |
| Township | Permanent | Voter     | higher wages so youngans can afford island   |
| Village  | Permanent | Voter     | Highlight online jobs that can be done at the island. Publicize the teacher/student ratio and the high school ratings that our school achieves.  |
| Township | Seasonal  | Non Voter | I imagine good employment opportunities. More ease of transportation on and off the island.  |
| Township | Seasonal  | Non Voter | Jobs, things for kids to do or places they can get together  |
| Township | Permanent | Voter     | More options for a year-round employment?  |
| Village  | Permanent | Voter     | More year round jobs   |
| Village  | Seasonal  | Voter     | Need more employment opportunities. Something other than just bars. Also we need to clean up the type of tourists the island attracts all summer.  |
| Township | Seasonal  | Non Voter | Reliable high speed internet and cell coverage on whole island would allow for more remote work.   |
| Village  | Permanent | Voter     | That is difficult because there is not a lot to do for young families in the winter. Unless people can work from home it will be tough   |
| Village  | Seasonal  | Non Voter | The island needs well paying jobs that can sustain a family. Restaurant work will not do this. Nor will tourism. A reliable internet may attract the work from home group. Also affordable housing is a must.  |
| Village  | Permanent | Voter     | The school does not seem to be the problem, it is a great school. Getting young families here is about opportunity, there isn't much of that here unless you can work a trade or have a professional career that lets you work from home.<br>Purchasing a home here for a young family is entirely out of reach since property here has gone to investment purposes rather than homestead reasons. |
| Township | Seasonal  | Non Voter | The school is an excellent school. In order to attract young families, they need year-round well-paying jobs on the island. Or year-round ferry service. Also more year-round restaurants and stores.  |
| Township | Seasonal  | Non Voter | Unsure. Maybe more business opportunities for parents.   |
| Township | Seasonal  | Non Voter | Very difficult for young families with little winter employment opportunities  |
| Township | Seasonal  | Non Voter | Year round employment  |
| Township | Permanent | Voter     | year round jobs.   |
| Township | Seasonal  | Non Voter | Year-round employment opportunities  |
| Township | Permanent | Voter     | Year-round jobs, affordable housing, more affordable transportation to the mainland are things that would help attract younger families. oops! I forgot child care services both in the winter and summer.   |

|          |           |           |   |
|----------|-----------|-----------|---|
|          |           |           | <b>School is great/need to promote</b>  |
| Village  | Seasonal  | Non Voter | From my pov that is already happening. School seems to have more students now than when we first started coming to the island   |
| Township | Seasonal  | Non Voter | I think interviewing some of the young families who live on the island who can share the positives of island life and the close community. I think information on the activities available for students and preschoolers would be pertinent, i.e, library activities, playgrounds, sports and extracurricular activities. It is amazing what these young families do together.  |
| Township | Seasonal  | Non Voter | I think things are going well. I've heard several families say that is why they moved to the island   |
| Village  | Permanent | Voter     | Market to Ohioans that we have a sustainable, year round lifestyle here. So many people I talk to have no idea that there is even a school system here.   |
| Village  | Permanent | Voter     | Not much. The school is an attraction for families with young kids as it is.<br>Teacher / Student ratio is great and the fact that we don't have bussing or food service leaves plenty of money for other things to better educate our children.  |
| Township | Seasonal  | Non Voter | Promote the great school system in publications. I believe PIB schools have the highest per pupil expenditure in the state.continue to give families jobs in the school system. Be welcoming to new residents!  |
| Township | Seasonal  | Non Voter | Promote the quality of your education   |
| Township | Permanent | Voter     | Promote the school as a good one because it is ! Doctor , dentist on island.  |
| Township | Seasonal  | Non Voter | Regular column in the Gazette focusing on positive aspects of the school and in results: interview a young family that has moved to the island (Fiorilli), small class size, scholarships, success stories of past grads (Wyatt Auger).   |
| Township | Permanent | Voter     | School is great best reason to move move onto the island. Small class sizes. Affordable housing for the families in the summer the rentals are empty in the winter  |
| Township | Seasonal  | Non Voter | Talk about how great the school is all the scholarships available to kids   |
| Township | Permanent | Voter     | The Schol is being run - just fine.   |
| Village  | Permanent | Non Voter | The school can promote its small class sizes to parents to show that their children will get more individualized attention from teachers at school. However, if too many families move here because of this, that will be gone, which would negate the school's promotion entirely. A daycare on the island would be a large help to families because they would be able to drop their kids off while they go to work.  |
| Township | Seasonal  | Non Voter | The school is an under-appreciated asset on PIB. The teachers and staff are fantastic. It appears to be well funded. The teacher to student ratio is unbelievable. It is better than most private schools. That said, the uniqueness of the island life which attracts many part-time residents and thousands of visitors, can become barriers for full-time families with children. Getting to and from the islands, limited shopping, off-island after-school activities, cost of real estate, Winter isolation, full-time job opportunities for parents, etc., can become quite a deterrent. |
| Village  | Permanent | Voter     | The school system here is amazing! I wish more people knew how wonderful the teachers and staff are and all of the cool programs they run for kids  |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Seasonal  | Non Voter | To my knowledge the school system on the island is great. Speaking to FT residents with school age children they seem to very please with the system as a whole.   |
|          |           |           | <b>Reduce Party Atmosphere on Island</b>   |
| Township | Seasonal  | Non Voter | Change the island environment.   |
| Township | Seasonal  | Non Voter | I don't have small children but I am very impressed with the school. To attract more young families to live here year round I think the focus should be on other services and family oriented activities. More bars won't attract young families.  |
| Village  | Seasonal  | Non Voter | I would not want to raise my kids here with all the misbehavior in the summer. What a terrible example!  |
| Township | Seasonal  | Non Voter | I wouldn't advise any young family to move to PIB until the culture changes. If we're happy being the party capital of Ohio/Midwest, we'd be doing a disservice to those young families. The cost of living on the island is high, it has a history of public corruption and has a reputation that puts Las Vegas to shame. Until a serious effort is made to change the image (the effort made ~5 years ago was a PR joke following the Tamica Williams fiasco. Designed to make people feel like something was being done. The result was a bunch more tiny signs and business as usual.). I'm OK if the island is nothing but commercial business that caters to rowdiness and drunkenness - if this is what islanders want the island to be. Just be honest about it and don't try to project a false image. I moved here for the natural beauty, fishing and boating. I'd prefer to live on an island like Mackinaw, but am a devout Buckeye fan! |
| Township | Seasonal  | Non Voter | Less bars and private strip clubs. Don't pretend that you don't know that this is going on. No more swim-up bars right downtown. That will deter families from visiting.   |
| Village  | Seasonal  | Non Voter | Less tourism   |
| Township | Seasonal  | Non Voter | Less trashy, more classy. Classy includes more family oriented - so kids aren't exposed to crude displays and behaviors on the streets, selling crude items in shops, etc... A community center centered on healthy activities: gym, indoor track, lap pool, workout room, day care, etc would benefit young families.   |
| Township | Seasonal  | Non Voter | Limit the drunks at all hours of the day.  |
| Township | Seasonal  | Non Voter | Make the island as family friendly as possible by limiting rowdy behavior. Try trending for good live bait (minnows eg) supplies, good year round groceries and less drink only establishments.  |
| Township | Seasonal  | Non Voter | Reduce crazy downtown  |
| Township | Seasonal  | Non Voter | Seems to me the island focus is on the wild life on the week ends and not families. Seems to me the best way to encourage young families is to have top quality educators in the island school. Be willing to find top teachers and pay them an outstanding wage for coming to teach on the island. Good teachers will be magnets for families with young children who want a good education which will encourage lots of great scholarships. If my children were young that is what I would look for.   |
| Township | Seasonal  | Non Voter | The clientele at the pool bars create an environment that deters young families from living on the island.   |
|          |           |           | <b>Broaden educational offerings</b>   |
| Township | Permanent | Voter     | Adopt Montessori methods.  |
| Township | Permanent | Voter     | Have courses on carpentry, electrical, plumbing and other related skills.  |

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Permanent | Non Voter | Having more options for sports, actual education is good and we've got a good thing going, more activities for students outside of the school, places to hang out together after school to build relationships  |
| Township | Permanent | Non Voter | Involve more sport options, more opportunities.   |
| Township | Permanent | Non Voter | More self mastery programs like language shop classes art and crafts kayaking fishing affordable housing<br>healthy balanced living<br>field trips to interesting places<br>programs on other islands<br>boating access   |
| Township | Permanent | Voter     | Provide more options for clubs or individual sports. Enrichment and field trips even around the island. Stop combining grades in an effort not to hire another teacher or have full time aides.   |
| Township | Permanent | Voter     | the school needs more electives and additional academic and non-academic activities. Our kids are getting a decent education but not a well-rounded education. We need young high caliber teachers with new ideas. We need more arts. Additional sports would be nice but challenging with so few students. How about additional swimming facilities that could be shared with the community?   |
| Township | Permanent | Non Voter | There needs to be more opportunities for the children. The pre-school is an after-thought. There isn't a big enough school staff to give the children the attention they need.  |
|          |           |           | <b>Offer Daycare</b>  |
| Township | Permanent | Non Voter | <p>Childcare and affordable/stable housing. The school and island has a lot to offer and is an excellent place for students to learn. Most students, when they come here they, tend to stay.</p> <p>Put-in-Bay is a two-income family island. Most families will not be able to survive on one income. Affordable child care is an issue everywhere, but if we attract new families without Grandparents, they will be unable to find care for their children.</p> <p>If we are able to solve the childcare issue, the next central point of order would be affordable/stable housing. Families want to be able to have the security of owning a home. As Airbnb increases, many property owners are realizing short-term rentals have great income-generating potential. This takes more houses off the rental market and leaves families with no options.</p> <p>Who takes the fiscal hit is the big question? Does someone sell below market value? Then worry that the person will then sell and take the money and run. Do we have subsidized rent controls?</p> <p>The only real option we have right now is to permit no new short term leases. This will drive short term market buyers out and fewer buyers means lower prices... hopefully.</p> |
| Township | Permanent | Voter     | Daycare option for younger students, full day and five-day a week preschool, more individual sport opportunities for kids (tennis, swimming)  |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Permanent | Voter     | Have a daycare that residents can pay for who live here year round. I am nervous our school will no longer exist if this continues to be an issue. A lot of young families are currently struggling with this and most are leaning toward vacating the island and their jobs.  |
| Township | Permanent | Voter     | Year-round full-time child care. People are limiting the size of their family because it is so hard to find consistent child care.   |
|          |           |           | <b>No opinion-not sure we need to expand school</b>  |
| Township | Seasonal  | Non Voter | I realize that young families are needed, however the exorbitant cost that MBI property owners pay for each student to fly or boat over to PIB each day is ridiculous per kid. We actually don't want more school aged kids on MBI because of the ridiculous amount we pay now per student.  |
| Township | Seasonal  | Non Voter | Improved ferry services would make it more attractive. We had considered, at one point, moving to the island full time, but it only made sense to maintain a primary home on the mainland for my winter commute. I would not have wanted my school age children living on the island without me during the winter months.  |
| Township | Seasonal  | Non Voter | It's a well endowed school. I don't know what would attract more younger families. Perhaps begin sharing some of the tax money with folks who own property.  |
| Township | Permanent | Voter     | No, because I would not raise a kid here. It is not a well-rounded atmosphere for a young family. There is no diversity. The island is a resort community that thrives on tourism, it is not representative of the country as a whole. I believe there are likely limited choices for gifted, and for that matter less gifted, students to be exposed to accelerated programs and class choices. Our kids were exposed in a mid-sized mainland school to team sports (I know, we have basketball teams) like soccer, football, baseball, gymnastics, etc. and large group organizations like concert and marching band, for example. I am not knocking our schools, teachers, or the administration, and in fact believe they do a quite good job. Nor do I judge anyone that has or will choose to raise a family here. It is simply my opinion that it is a too sheltered and different kind of community to raise a kid. Great place to retire however, unless or until you get sick. |
| Township | Seasonal  | Non Voter | No. I don't care for children.   |
| Township | Permanent | Voter     | The school is wonderful. Why do we need more children attending here? They have more equipment and opportunities than a lot of mainland schools.   |
| Township | Seasonal  | Non Voter | This makes the assumption that this is needed and important? There is no good reason for a family to want to move their kids to the island. Limited career options, income, homes, disconnect from the real world and opportunity. Attracting families only benefits the wealthy business owners to exploit them as workers with no real chance of upwards mobility.   |
|          |           |           | <b>Other</b>   |
| Village  | Seasonal  | Non Voter | Better ferry service and year-round services.  |
| Township | Seasonal  | Non Voter | Better grocery access  |
| Township | Seasonal  | Non Voter | Island life needs to be more well-rounded and convenient for more young families to feel comfortable living there years round. I can't imagine the schools and air service in the winter make it a top contender for growing families.   |
| Township | Permanent | Voter     | More diversity in the teaching staff.  |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Seasonal  | Non Voter | More things open year round.   |
| Township | Seasonal  | Non Voter | One island one government  |
| Township | Seasonal  | Non Voter | Perhaps promote the island nationally and the laid - back Island living.   |
| Township | Seasonal  | Non Voter | Pretty much stated that in my very long previous response.   |
| Township | Permanent | Voter     | Start paying better so people can afford to live here instead of putting it into your private pockets. 5\$ a beer, \$30 for a pizza.<br>Start giving back to your employees.   |
| Township | Seasonal  | Non Voter | That's a tough one   |
| Township | Seasonal  | Non Voter | The island would need more year round attractions to induce younger people to move here. The school by itself, no matter it's high quality, is an insufficient attraction.   |
| Township | Seasonal  | Voter     | Unfortunately, I don't have any suggestions but would like to see it happen. Now that more people work remotely you would think it would be very attractive to people that would like to have their children in a safe small community environment.  |
| Township | Seasonal  | Non Voter | We would consider living here year round if we had potable water available year round at St. Hazzard's condos. As it is, the water shut off from Dec- April.   |
| Village  | Seasonal  | Non Voter | Year round affordable access to get on and off the island, a general store and more restaurants bars open year round.  |
| Township | Seasonal  | Non Voter | Year round families need access to healthy fresh food, decent affordable houses, and more sports facilities.   |
| Village  | Seasonal  | Voter     | Yes, need young families to help maintain the viability of the island.. The school is a great opportunity for children.. small class size, individual attention.. Advertise this..<br><br>-The island needs more full time employment opportunities<br>-Residential costs are expensive<br>-Winter family social activities are restricted.. We all miss Tipper's family atmosphere. |

**Do you have any additional comments that you'd like to share about life on this island? Anything else you feel is important to your quality of life?**

**Reduce Party Atmosphere**

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Permanent | Voter     | better control of people who come to the island and golf carts ,to great of a number of them .   |
| Township | Seasonal  | Non Voter | Continue to explore family activities. There needs to be focus on family activities not just alcohol and entertainment options for the adults. Maybe more activities partnered with the Library. Or a patnership with The Family Fun Center and the pool for kids only time- no alcohol. What about Nature programs in the various walking woods with a craft associated? How about life skill workshops to teach basic cooking, baking, sewing, woodcraft, arts and crafts for children up to age 14. Townhall... Ask for island retired volunteers, retired teachers, and craftsmen/women.   |
| Township | Permanent | Voter     | Find ways to keep the inconsiderate visitors uncomfortable with visiting and provide affordable living options for younger families.   |
| Village  | Permanent | Voter     | I really enjoy my life here on the island until the summer weekends arrive. Then I tend to stay hidden at my house in order to avoid the downtown nonsense. It used to be that the island emptied of tourists every evening and the islanders would gather (at the old Beer Barrel) and enjoy each other's company. I don't think we have good connections with our neighbors anymore.   |
| Village  | Seasonal  | Voter     | I worry about the quality of summer visitors that PIB is attracting now.... The pool bars, the new strip club at the Crescent, Christmas in July type crowds.. is bringing in a group of low life people.. Be prepared for a disaster someday when the white hillbillies and the Christmas crowd clash...<br>It is time to go back to the last Jet Express at midnight and last call at 1am in the bars...   |
| Township | Seasonal  | Non Voter | I would like to see the island being promoted as a more wholesome place for families to visit, like Mackinac Island. Even in Florida PIB is known as a "party Island".<br>Key West and NOLA have a better handle on the balance between fun and excess.<br>I have witnessed persons being over served in bars on several occasions.<br>I appreciate there is a short window for businesses to make their yearly wages but some control must be observed.<br>Just a small matter. Limit golf cart rentals! Maybe just on weekends, get the folks downtown and let them walk to each bar.<br>Good luck with this survey hope it brings new ideas to the Islanders. |

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Seasonal  | Non Voter | <p>In my opinion, the senior community, which is so vibrant, as well as the many young families living on the island create a a friendly, close knit and safe place to live.</p> <p>Early Spring, late Fall, and Winter are the most enjoyable times of the year to experience the wonderful community. The Summer season is challenging because of the number of visitors, golf carts, and especially the uptown weekend crowds(many of whom really have little respect for our beautiful island).</p> <p>I am considering making the island my year round home if the medical facilities and in home care services are available in the future.</p> |
| Township | Seasonal  | Non Voter | Island is overcrowded on weekends, too many golf carts, village needs additional revenue for police service.  |
| Township | Seasonal  | Non Voter | Less pool bars!   |
| Township | Permanent | Voter     | limit the number of liquor licenses, golf carts, zoning variances for more "tourist rentals"  |
| Township | Seasonal  | Non Voter | Quit promoting sleezy events surrounding drinking. Crack down on pot smoking in golf carts. Perhaps think about setting aside child friendly/family friendly zones. Encourage businesses to create such things by giving them incentives (we all know family friendly entertainment is not as profitable as selling booze).   |
| Township | Seasonal  | Non Voter | Respectful night-life visitors  |
| Village  | Seasonal  | Non Voter | the culture is too concerned with alcohol as a business: not a decent swim beach on the island for kids:  |
| Township | Seasonal  | Voter     | The island should transition from a party destination to something more family and adult friendly. There are other islands in the great lakes (Mackinac) and the US (Tybee, Martha's Vineyard) that have done this. This is impossible because a few families and business owners make a lot of money off monopolies and seasonal alcohol sales. Until that changes, the island will be primarily known as a party destination and all that entails (more crime, drugs, sexual assault, corruption, demand on services, and wear and tear on the island).   |
| Township | Seasonal  | Non Voter | Tone down the bar scene, limit golf carts, ban motor bike rentals, bring back bicycle rentals, enlarge and improve bathing beach in town, better/cleaner grocery store, weekly farmers market, fewer T-shirt shops, more quality purveyors, close bars at 1:00 not 2:30.  |
| Village  | Seasonal  | Non Voter | Too many bars on the island; need fewer bars and less alcohol   |

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Permanent | Voter     | Tourists are the biggest problem on the island. They trash the island, don't respect private property and are generally disrespectful because they are "on vacation" so they feel acting like a courteous human being isn't required of them. Every Saturday, they drive drunk around beeping thier golf cart horns constantly, blasting load music and yelling. There are too many golf carts and not enough parking. And everything is so expensive they just drive around with a cooler getting drunk and acting belligerent, littering. I stopped biking to work after almost being hit by golf carts not paying attention so many times, it's unsafe and there is no protection or repercussions. I watch cops let people openly drinking in thier golf carts go, or openly going down a one way alley go. Dangerous behavior needs to be stopped. They drive through peoples yards and park wherever they please. |
| Township | Permanent | Voter     | Unfortunately we are not known for the beauty, ecology, historical relevance and a family friendly environment. We are just know for over the top drinking and insanity associated with 24 hour non stop partying.  |
| Township | Seasonal  | Non Voter | We have enough parks. All of that land comes off of the tax duplicate, that could have been housing or commercial. The one's we have are nice, enjoyed by many, but we don't need anymore. Continue to not advertise "Christmas in July", advertise our church home and families, advertise that this is not just a party place. So many visitors come up to see what's on Delaware Ave., and we have so much more to offer. Some of the "festivals" may draw the wrong kind of crowds. We have to be careful. I think most of the businesses would rather have family friendly instead of rowdy drunkenness.   |
| Township | Seasonal  | Voter     | While tourism is the lifeblood of the island, the disrespect of property and complete lack of any reasonable enforcement of laws and common courtesy that is allowed gives the impression that it is a 'lawless' area. Get off a Ferry and just do whatever you want. Get as crazy as you can. Rent a 4 person golf cart, put 7 people on it, flaunt your cooler of your own alcohol and just go terrorize where ever you like. There is no limit to the idiocy. While it might make Saturday night people watching downtown fun, it is the same reason you can't attract young families. The first thing that should happen is a LIMIT on the # of Golf Carts for rent. It is currently ridiculous. No wonder there is complete grid lock in busy areas.   |
| Township | Seasonal  | Non Voter | With all the bars, plus ruining downtown with the new swim up bar which resulted from bad city planning. Can not have an island that revolves around alcohol and raise children. We avoid downtown on the on weekends because of the rowdiness. Need better police enforcement.   |
| Township | Permanent | Voter     | With the tourism numbers going up every year, it's pushing the limits of what the island can handle and control. And it appears that the government is more interested in satisfying the tourist business as opposed to the people who live here.   |
|          |           |           | <b>Better Police Enforcement</b>  |
| Township | Seasonal  | Non Voter | 1 police dept for the island is plenty too  |

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Seasonal  | Non Voter | Better police service when downtown drunks are running around the island in golf carts.   |
| Township | Permanent | Voter     | Enforce penalties for open smoking of stinky marijuana and children driving golf carts.   |
| Township | Seasonal  | Non Voter | Evaluation of the policing fiercest this season.  |
| Township | Seasonal  | Non Voter | Greatly improved policing that is transparent throughout the entire island is paramount to improved island life. Governing bodies (township and village) that expect police officers to actually write citations and make arrests instead of just giving verbal warnings. Police officers giving verbal warnings (or doing nothing) make the concept of a "Safe Island" just a momentary thing. We need police actions that will help our current and future visitors recognize that the island has rules that are expected to be followed. |
| Township | Permanent | Voter     | I loved it when the population wasn't treated like they don't belong in some of the downtown businesses. The prices of eating out has risen tremendously. I think the police department doesn't know the basics of how the year round population functions. I think they need to get to know the local people.  |
| Township | Permanent | Voter     | I want the existing regulations/laws enforced equally and across the board. I want a noise ordinance island wide that is enforced. I want the ability to have police services here when I need them, and the officers need to enforce the laws.   |
| Township | Seasonal  | Non Voter | Improvements are necessary for the police department. There are two Brady list officers, one of which is the chief. This was deemed acceptable in a background check? That is another negative for the island. The chief of police seems unaccountable for his absolute disregard for regulatory compliance. He walked out of a meeting without answering questions directed toward him. There was also a police levy that seemed to not disclose the use of the levy funding. That is ridiculous.  |
| Township | Seasonal  | Non Voter | Let LaVorcheck run the police dept. in two years he would clean it he village   |
| Township | Seasonal  | Non Voter | Lower speed limits on narrow roads like West Shore.   |
| Village  | Seasonal  | Non Voter | My hope is the sheriff's dept contract will help keep things under control on the weekends  |
| Village  | Seasonal  | Non Voter | NEED VIDEO SURVEILLANCE OF THE MAIN STRIP OF BARS DIRECTLY SENT TO THE POLICE STATION. FAVOR OF SOME TYPE OF VISITOR FEE/TAX OR PAYROLL INCOME TAX TO PROVIDE FUNDING FOR THE POLICE DEPARTMENT   |
| Township | Seasonal  | Voter     | Please fix this two law enforcement situation, and over haul our village police department. It really is a mess. This Chief has no business being the chief.  |

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Permanent | Voter     | Police here are rude and they don't seem to be vetted at all. I wish the post office had more normal hours, it doesn't really make sense 8-12-2-5 ?? that's normal work hours it's odd and other post offices on mainland do not seem to have those hours. We need some sort of building code for new businesses.   |
| Village  | Permanent | Voter     | Police, police and more police! The daily nonsense in the summer months needs to be addressed. Paid parking and yearly resident permits would produce additional revenue.   |
| Village  | Seasonal  | Non Voter | safety in the summer. This seems to be getting out of hand with a lot of destruction of property and people driving golf carts drunk. There should be a crack down on driving carts after drinking. No different than driving a car.  |
| Township | Seasonal  | Non Voter | Stricter enforcement of the laws against public intoxication and a prohibition of suggestive dress in public areas, especially in those visited by children.  |
| Township | Permanent | Voter     | The web site that lists crime by zip codes<br>Shows zip 43456 getting an F.<br>Need more transparency from police and government about crime. This place isn't safe.  |
| Village  | Seasonal  | Non Voter | Traffic control. There are too many carts on the road and too many drunk drivers. The island is not an amusement park slow-ride.<br><br>I suggest public transportation stopping at all the entertainment sights and state park and the many walking woods. Sell a day pass and hop<br>On/off at will. Electric or old fashioned cable cars. I wish the current tour busses were better used. |
| Township | Permanent | Voter     | Within the last several years I no longer feel safe going downtown Thursday through Sunday. The number of golf carts on the island are too many, there isn't enough parking for all of them. The congestion they create make traveling anywhere on the island an ordeal. It seems our spirit of community has dissipated over the years, and sadly it is not the island home it once was.     |
|          |           |           | <b>Golf Carts Are Problematic</b>   |
| Village  | Seasonal  | Non Voter | 1. Noise and golf cart proliferation seem not to be controllable<br>The genie left her bottle<br>With the coming of the Jets.<br>Captains pull the throttle<br>So the rich can pay their debts.<br><br>six generations of consuming summer folk   |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Seasonal  | Non Voter | Fewer golf cart rental places<br>Quit issuing more and more liquor licenses<br>Reduced late night ferry service  |
| Township | Permanent | Voter     | Fewer golf carts and more parking  |
| Township | Permanent | Voter     | Golf Carts are symbolic of all island problems. People are doing everything they can to make as much money as possible, even though the island may not support all the carts here. The parks are growing ever more as little is done to maintain, regulate, and police them and raise property costs. The bars are growing even as we have many and creates more issue.<br><br>Everyone is in it for themselves to get much for themselves. Everyone thinks they are right, and everyone thinks they are making the island better. The businesses want business-friendly climate, the parks want more preserves, and the cottagers want a quiet peaceful area. Nobody works together because they really can't without one voice in government for all of South Bass Island, we will continue to be different interest groups competing to get theirs. |
| Township | Seasonal  | Non Voter | It is becoming to expensive. There are too many golf carts   |
| Township | Seasonal  | Non Voter | Less golf cart rentals   |
| Township | Seasonal  | Non Voter | Limit cabs and rental golfcarts  |
| Township | Seasonal  | Voter     | Need to limit the number of golf carts running around on the island. I think we've exceeded the carrying capacity. Municipal parking lot might be a good idea at this point.   |
| Township | Permanent | Voter     | One thing that is getting increasingly worse each year is the dangerous driving of both island cab and taxi companies and rented golf carts. Golf carts should not be allowed to drive in the bike lane (where island children ride their bikes and tourists walk) and create a "third lane" for the taxis to drive in the middle of the road, pushing others to the sides and occasionally off the road as I have experienced myself. There should be harsher measures taken to stop this as it is causing more and more accidents and can result in fatalities as well. More signage saying no motorized vehicles in bike lanes" and increased police patrol of this issue could save lives of islanders and tourists alike.   |
| Village  | Seasonal  | Non Voter | Since I am a spring to fall resident, my biggest issue is with the golf carts and unruly tourists.   |
| Township | Permanent | Voter     | STOP/Control/limit additional golf cart rentals.   |
| Village  | Seasonal  | Voter     | The extreme number of golf cart rentals that have been allowed to expand annually on the island has by far been the biggest deterrent to an enjoyable life here. Sadly these companies make huge profits off the backs of the PIB residents & give nothing to the community in return.   |
| Village  | Permanent | Voter     | The number of golf carts rented out each day from all rentals should be proportional to the number of parking spots available in the downtown area.  |

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Seasonal  | Non Voter | There are too many golf cart rentals and more are added every year. Slow the taxis down and create a drop off/on site downtown.   |
| Village  | Seasonal  | Voter     | Too many golf carts - current laws regarding drinking/driving are not enforced. Too many golf carts has made traffic unsafe.  |
| Township | Seasonal  | Non Voter | Too many golf carts. It's unbearable and honestly unsafe in the summer months.  |
| Township | Seasonal  | Non Voter | We have to cut back on the golf carts. I know that we will have to let existing carts 'die' but there should be a limit to the number of carts any lodging needs. Consider an annual licensing surcharge for transient carts because the situation is ridiculous and definitely disruptive.   |
|          |           |           | <b>Need More Facilities/Services</b>  |
| Township | Permanent | Voter     | Building pickle ball courts is a MUST.  |
| Township | Seasonal  | Voter     | Daycare would be huge. Many year around and part time residents work on the island. There aren't too many babysitters. I believe a daycare facility would help TONS and the village would make additional revenue   |
| Township | Seasonal  | Non Voter | Extended restaurant hours while<br>Not peak season.   |
| Village  | Permanent | Voter     | Families are less likely to come here the more we build facilities that attract people that have different values. Dining, drinking and entertainment is one thing but different establishments draw different people. If we allow the these establishments to take over it doesn't matter what you offer families, they won't want their children around it. |
| Village  | Permanent | Voter     | I think things that would be nice would be an indoor swimming pool for year-round use, night classes for adults, a community shop class for students and adults to teach islanders skills like carpentry, wiring, plumbing and other classes like how to run a boat, photography, art, cooking, etc.  |
| Township | Seasonal  | Voter     | I'd like to see an architectural review board to prevent ugly buildings/homes from being built. I'd also like to see a historical code which prevents historical buildings from being torn down.  |
| Village  | Permanent | Voter     | It would like to see a community center for residents of all ages, a natatorium, something we can use in the off months and the summer, alot of us wont take our children anywhere near the chaos of town on the weekends and thats pathetic  |
| Township | Permanent | Voter     | More housing options for families instead of all the businesses buying up all the properties for housing, build dorms for housing, let families buy the homes to build there families dream   |
| Village  | Seasonal  | Non Voter | Needs a better grocery store!   |
| Township | Permanent | Non Voter | The island needs a good grocery store with fresh food. There are no organic options. There is no medical are in the winter and sometimes life flight can't even make it.  |
| Township | Seasonal  | Non Voter | The island needs water and sewer lines extended to all islangers. Also better and reliable internet.  |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Seasonal  | Non Voter | <p>We need resources to provide public services (police). Much of the demand for services is from summer guests and the islands party culture. We should raise resources to meet the surge summer demand by taxing those services driving the demand such as: ferry fares, golf cart rentals, alcohol sales, etc.</p> <p>On police services - we should look for quality and quantity improvements... we need surge support in the summer which is difficult to staff. How about providing quality housing for summer police staff and then filling summer positions with veteran police from around the state... like a summer honor/temporary duty position at historical (and classy) Put-In-Bay... one would think officers/departments would jump at a summer "honor duty" on Put-In-Bay provided the compensation was adequate, housing adequate, reasonable hours, and their home department allowed/encouraged this temporary duty. Maybe the State of Ohio could help encourage this - as Put In-Bay is an important tourism/environment/historical element of our state.</p> |
| Township | Permanent | Non Voter | <p>We need to do more about the ferry services. Like i said before we need to not feel so trapped. The ferries should not decide what we do and do not do with our lives. The fact that we have to take a plane it boat to possibly save someone's life from dying says a lot. What if they don't have the money for lifeflight? Do they just die? We need more motivation in the community amongst teens as well. More positivity.</p>  |
| Township | Permanent | Voter     | <p>With out affordable housing, good year round transportation &amp; good paying year round jobs. We will end up with no firemen, EMS, teachers &amp; police.</p>  |
| Township | Seasonal  | Non Voter | <p>I'd love to see island clean up days were trash haulers came over to pick up abandoned cars, boats, jet skis, kitchen appliances, etc. It's a necessity due to the unique nature of island living, and many islands have programs for this purpose. The recycling center could be a drop off point for smaller things that are able to be moved. I understand it can be costly to dispose of cars, and people may want to have spare parts on hand, but it is out of control. It hurts property values, is an eyesore, and is a health hazard. Neighbors shouldn't have to be the "bad guy" trying to enforce a reasonable clean up policy.</p> <p>If I could wave a magic wand, I'd also work toward reversing the law that prohibits ATVs from operating on roads May-Oct. I'd also make Airline drive a dedicated road so the potholes would be repaired.</p>  |
| Township | Seasonal  | Non Voter | <p>The bike lane on main roads should be widend to accommodate golf carts to improve traffic flow</p>  |
| Township | Seasonal  | Non Voter | <p>The boat ramp at the State Park needs to be reworked and reduce the golf cart traffic in the boat parking area.</p>   |

|          |           |           | <b>Unsure About Monthly Rental Zone</b>  |
|----------|-----------|-----------|--|
| Township | Seasonal  | Non Voter | Can't answer rental zone question without more info as to exactly what that means. Definitely don't want rentals next to our house. That brings a whole set of problems.<br>I just wish that the PIB party reputation would go away. It's ruining the island in my opinion.  |
| Township | Seasonal  | Voter     | I don't know what a monthly rental zone is, so you can ignore my no answer. I don't know should have been an option.   |
| Township | Permanent | Voter     | I don't understand the last question.<br>Water and sewer available island-wide would be nice.<br>Less golf cart rentals would be better.<br>Cleanup of abandoned or inoperable vehicles especially in people's yards and in driveways.   |
| Township | Permanent | Voter     | I don't understand the question about monthly housing zones.<br><br>I think the more recreational activities the better. I would love an indoor community lap pool, indoor track etc.  |
| Township | Seasonal  | Non Voter | I don't understand they monthly rental housing zones are   |
| Township | Permanent | Voter     | I think the monthly rental zone is a great idea or the possibility of limiting the "licenses" or approvals for rentals for nightly/weekly so that some of the residential houses do not sell for high prices just so they can turn into airbnb or tourism properties   |
| Township | Seasonal  | Non Voter | I'm confused by the last survey question about monthly rental zones. I have never considered renting our home, but may not understand the current restrictions. Our house had renters in it when we bought it, a house down the street was purchased and now houses seasonal workers. I am also surprised your survey didn't address current issues of police coverage for the township. Calling the police at 4:00 am because we were woke up by a group of four adults in our yard, and being told "they are probably just drunk", we don't have any police available, ie deal with it yourself was not the response I expected. |
| Village  | Permanent | Voter     | Island Club was the first attempt at affordable housing on the island and look how that out.   |
| Township | Seasonal  | Voter     | Monthly rental zones are not explained so I answered NO. It is an interesting concept but I don't know how it would work.  |
| Village  | Permanent | Voter     | Monthly rental zones will not help. We need more year-round rental housing and less weekly rentals. If anything, zoning in both village and township should be more strict on weekly and daily rentals to help promote more long-term rentals.   |
| Township | Seasonal  | Non Voter | We don't need to invite low income housing to the island.  |
|          |           |           | <b>Love Life on the Island</b>   |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Seasonal  | Non Voter | honestly, I love living here in the summer! Love the way the community comes together when people need help in some way. If i had one wish....it would be a 4 way stop sign at the corner of PIB road and Meechen. It can be Very confusing to anyone that doesn't live here. A lot of folks think it is a 4 way stop, so they stop and take off in front of an oncoming car. I have witnessed many near misses with bikes, carts, cars, RV's trucks with boats. Also, because there are no lines in the middle of the road, people pass near and at the intersection. At the very least the roads, Meechen in particular should have center line and no passing zones. Great to see police out on golf carts! |
| Village  | Permanent | Voter     | I entirely love living here, I really don't want to be anywhere else.<br><br>Quality of life would improve without so much of the rowdy tourism. The summer months are horrible and I have even spoken with day tourists who are put-off with the congestion of the island. Getting control of this would improve the quality for everyone. It certainly has reached the point where capacity limits might be needed, the flip side is It is definitely nice to have some of the services available because of the tourism, but I am reaching a point where I think the limit has been stretched too far.  |
| Village  | Permanent | Voter     | I love life on this island. It is an absolutely beautiful place the live. The only real problem that we have is lack of effective government. If we had a government who truly cared about its residents and actually listened to the residents, this island could be an amazing place. Unfortunately, the majority of our elected officials and administrative personnel are more concerned about their own power and egos than they are about solving island issues in a fair manner that could benefit everyone.  |
| Township | Seasonal  | Non Voter | I love this place, it is my happy place. What I don't love is the change I am seeing. Rent more golf carts, allow taxicabs to dominate the roads with speed and disregard, sell more liquor because god knows that's what life is all about. Really? Our friends and neighbors in the township are salt of the earth people, many sharing these same feelings. Preserve Island life, not party life.   |
| Township | Permanent | Voter     | Island living is not for everyone: but, I have enjoyed living on PIB. It's a wonderful community!  |
| Township | Seasonal  | Voter     | PIB island life if very unique and could be promoted. Possibly the new Chamber Head could help in promoting "Island Life" not just the island activities.<br><br>Michael Diskin<br>West Shore Blvd.  |

|          |           |           |   |
|----------|-----------|-----------|---|
| Township | Seasonal  | Non Voter | The uniqueness of living on the island is very special. Other than the "crazies" that descend upon the island on weekends (and who, unfortunately, drive the island economy), the islanders and cottagers are a strong, compassionate group of individuals that seem to really look out for each other. That is very comforting and a draw for new families, I would think. However, I don't think making "monthly rental zones" would be in keeping with the ambiance of the island. Tough issues, I realize!  |
| Township | Permanent | Voter     | This is a great place to live! Let's not commercialize anymore  |
| Village  | Permanent | Voter     | This island is an incredible place to live and raise a family. This is the kinda place stories are written about.<br><br>I hope you get some good answers out of this survey.   |
| Village  | Permanent | Voter     | We are blessed, nothing like living on an island. But it has it share of challenges and extra expenses.   |
| Township | Seasonal  | Non Voter | we have had to call for medical help 3 times in 13 years ... from a broken wrist, to a dog bite, to a serious jet ski accident off of our shoreline...EMS was fast and amazing.<br><br>The Trustees seem to think MBI is on the other side of the world OR not their problem when contacted with questions or problems. what you get back from them is....crickets.<br><br>MBI cannot attract visitors because the rentals that are available are trash, namely at Hazards. Why isn't PIB overseeing the guy who owns Hazards....he gives the island a terrible rep and impression. |
| Township | Seasonal  | Non Voter | We love MBI. Coming here since '83 when our family home was built in Burgundy Bay & still is the expanded family summer home. We retired recently and bought our own condo. We love it. Would be here during winter if water & health care were available. Don't over commercialize MBI.  |
| Township | Seasonal  | Non Voter | We love this island and have owned our cottage since 1966. We understand that the people here deserve to profit from tourism. We just hope for a better balance. Can't tell you how thrilled we are to be away from downtown on some weekends.  |
|          |           |           | <b>Need Stronger Local Government</b>   |
| Village  | Permanent | Voter     | combining the village and the township needs to happen soon. We are to small to function separately. We now have a lot of non islanders buying businesses and that will change the dynamics of what happens because they are just here to make money and they do not care what happens the other 6 months of the year.  |
| Village  | Seasonal  | Non Voter | Currently everything is so conflicted and confusing, between the village, the township, multiple police enforcement, growing buisness and their interests VS residents, the island is in constant chaos. This Chaos, is felt by tourists and keeps many families from visiting.   |

|          |           |           |   |
|----------|-----------|-----------|---|
| Village  | Permanent | Voter     | I think it's very important that the people who are in government positions on the island be YEAR ROUND residents. Look at Village Council right now: 2-3 members have a little apartment on the island with primary life elsewhere! That's just wrong.   |
| Township | Permanent | Voter     | More support from Ottawa County services that our taxes fund ie: cooperation with law enforcement, including the prosecutors office, more attention for elder care programs, help with day care services esp in the summer season for the businesses and workers.   |
| Township | Permanent | Voter     | Short term rentals in residential areas is extremely frustrating. Zoning laws do not seem to be enforced. Minimal availability of reasonably priced housing limits younger people from being able to move to the island year round. Families are also having trouble finding consistent and affordable child care for spring, summer, and fall.   |
| Township | Permanent | Voter     | Since many houses before zoning now imposable to enforce and with rental demands increasing hard to set limits. Sandusky has yearly rental inspections to maintain housing stock and protect renters, might work here but with two governments hard to enforce  |
| Township | Seasonal  | Non Voter | The lack of communication from the Township to the Village with our recent policing issue is incomprehensible. They are representatives of the voters, who spoke by voting no on the police levy, they then went ahead increasing our costs anyway. Time for elected officials to listen to their voters! Vote them out, starting with XXXXXXXXXXXX!  |
| Township | Permanent | Voter     | The sheriff deal was and is absolutely ludicrous!   |
| Township | Seasonal  | Non Voter | There needs to be better oversight of houses illegally renting short term.<br>There are business owners who don't live there year round who are draining resources and pulling money off the island. Talk of more bars, strip clubs across from the park, trash Island Club rentals stop me from wanting to take my family downtown at times. Smell of marijuana everywhere.<br>Need to be more family activities. A boardwalk with games, bounce houses, splash pad, swimming area, bike trails. |
| Township | Seasonal  | Non Voter | Try to resolve the obvious friction between the Village and the Township. Create more affordable and decent housing for renters. Have a list of people who will perform various tasks at reasonable prices. I continue to encounter people who view the island as a party island and it seems to me that it is a problem on weekends from May to October and the rest of the time it is a great place to own property.  |
| Village  | Permanent | Voter     | We need more tax revenue to just maintain our current lifestyle, let alone try and improve it. Raising taxes is not the answer. Our government, hopefully only one down the road, need to lobby to get more state dollars. Thank you for conducting this survey. Looking forward to not only reading the results but seeing the actions that the residence feel are needed.   |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Seasonal  | Non Voter | Would prefer stricter zoning requirements in the Village. I don't know of many other seasonal resort towns that have such lax zoning requirements. Most have zoning that requires similar style buildings and prevents certain types of establishments but seems like someone can build anything in the Village.   |
|          |           |           | <b>Need Improved Medical Care</b>  |
| Township | Permanent | Non Voter | Having some sort of advanced medical facility that that can do stitches, give shots, get X-rays and not have to go to the mainland to take care of that stuff. Having a place to get a variety of fresh foods and groceries and meat and stuff, especially in the winter. Bike lanes would be nice. Better cell service if possible. Better internet would be amazing. Having a Rec Center would be AWESOME!!!   |
| Village  | Permanent | Voter     | Health care options and grocery options seems most important to me, but I've only lived here six months so far. I know the seasonal workers need housing and I know the restaurants need staff. Not sure how to address those.   |
| Township | Permanent | Voter     | Being a small island, it's inherent that we would lack some of the luxuries of living on the mainland. However, we should not continue to lack in basic necessities of life such as proper healthcare, daycare and housing. It's seems plausible that a small healthcare facility could be established on the island with the help of a local practitioner and either Mercy or ProMedica. The school has the financial capability and space capacity to be able to set up a daycare facility and in return greatly increase the islands' appeal to young residents. Housing will always be a problem, there just isn't enough of it to go around. I do feel that home owners should be encouraged to build "granny flats" if they have the ability to do so. Zoning greatly hinders people from exploring these options that would allow for more available housing. |
| Village  | Seasonal  | Voter     | Better medical facility with emergency department, radiology and lab.  |
|          |           |           | <b>Other</b>   |
| Township | Permanent | Voter     | Another thing I think is important to improve the quality of life on the island (and potentially attract more families) is expansion of sewer and city water connections. With the shallow bedrock, it is very difficult and expensive to install septic tanks, and they often have issues that are expensive to fix. Expanding our infrastructure is an important step to maintaining and growing our year-round community. I think the sewer connections are more important that the water, but wells are expensive to put in and have the potential to be contaminated if we have more issues like have happened in the past.   |
| Township | Permanent | Voter     | At my age and stage in life, I am fine with what island life offers. However with real estate taxes increasing so much and the expense of transportation to and from the island, it gets harder for older retirees to live here comfortably.   |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Seasonal  | Non Voter | Attracting a few additional skilled craftsmen or contractors (carpentry, electrical, plumbing, painting, etc.) to the islands. It is difficult to properly maintain a residence; let alone, undertake renovations or new construction. The few craftsmen we have are always busy (or unreliable). You can literally wait several years to get work completed. Many of the mainland contractors perceive the barriers to performing business on the islands is not worth their efforts. It would be great to attract a few new resident craftsmen and/or educate a few reputable mainland contractors that there is a need for timely, high-quality work at competitive prices. |
| Township | Permanent | Voter     | Communication!   |
| Township | Permanent | Voter     | Everyone needs to get along and be respectful of each individuals wants and desires in life.   |
| Township | Permanent | Voter     | Feel that investors/corporations are taking over the island. Most property sold is now to investors. Very few individuals are buying because of the price. Property taxes are too high for what township residents receive in return which is basically nothing.   |
| Township | Permanent | Non Voter | <p>Finding balance is key. Too much downtown development will lead to the island becoming a "resort," and too little downtown development will limit jobs and tax revenue to get things done. I am unsure what the best course of action forward is as there are so many competing issues. People will say we need a quieter island but are more than happy to sell their property at the maximum value generated because of downtown.</p> <p>Doing what is in the island best interest is in the eye of the beholder and when it conflicts with people personal interest the overall health of the island will play second fiddle.</p>  |
| Village  | Permanent | Voter     | For myself personally, if the time change goes into effect ending daylight savings, this is going to change the hours of access to our island. Myself along with the school kids leaving in the morning will no longer be able to get to school/work on time. I think we have an opportunity to look into improving airport access to our island.  |
| Township | Seasonal  | Non Voter | For us the continued degradation of Lake Water quality has had the greatest impact over the years. Influencing corporate CAFO's using political influence should be a local government priority. Resident and visitor perception of the algae issues vary from mild for those who don't swim or boat on the lake, to intense for those who boat and swim. For all, improving water quality is a positive, why not try to help affect change?   |
| Township | Seasonal  | Non Voter | Having quality businesses and quality owners. I feel some of the village businesses care solely about lining their pockets at the expense of the rest of the island. (I'm looking at you XXXXXXXX)   |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Permanent | Voter     | I hear frequently that unless you own or are born into a major island business family there is little chance for a family and their kids to actually "make it" on the island. Everything is expensive and it's unlikely a working youth could ever expect to own their own home even working multiple, mostly seasonal, jobs. I don't have a solution for that, and believe it is also not unique to the island (no one in the service industry in San Francisco actually lives in San Francisco). |
| Village  | Permanent | Voter     | I'd like to see the businesses stay open a little later than the 3rd week of October. It seems like the whole island shuts down then except for Topsy Turveys and the general store/hardware store. It makes for a really long period of time before things start to open up again in late April/May.  |
| Village  | Permanent | Non Voter | Life on this island is pretty unique due to having to take a ferry to go places and the isolation experienced in the winter. I think that the cost of living is important to people's quality of life because financial stress can significantly negatively impact someone's mental health.  |
| Township | Permanent | Non Voter | mental health services<br>water quality<br>algal bloom<br>air quality<br>field trips<br>art center<br>sculpture garden   |
| Township | Seasonal  | Non Voter | More events. Bring people to the island  |
| Township | Seasonal  | Voter     | More street lights. More parking downtown.   |
| Township | Permanent | Voter     | my privacy   |
| Township | Permanent | Voter     | My quality of life is good, but I am also young enough and have the means to come and go year-round. There simply is not enough to do here in the winter and young people fall into the unemployment spend your days and evenings at the bar routine. I suppose the answer must lie in year-round remote work and more community activities. But I am uncertain how we get to this point. I do not feel the summer resort business model alone sustains a healthy community.                       |
| Township | Seasonal  | Non Voter | Often in places the biggest problem is people coming in with new plans and big ideas that they find a way to force upon an entire population. The idea of change is far more of a selfish ambition than a representation of what people really want. The island was a far better place before people got the bright idea to change everything to supposedly make it better. Changes should be slow, subtle and natural based on actual need, not any attempt to re engineer for the greater good.  |
| Village  | Seasonal  | Non Voter | Redo Delaware Avenue. Make it two ways again.  |
| Village  | Seasonal  | Non Voter | Summer residents are not considered as an integral part of the community even though they contribute to it both in helping out, joining in activities, and in owning property (paying taxes, etc).   |

|          |           |           |  |
|----------|-----------|-----------|--|
| Township | Permanent | Voter     | This isn't the city that's why I live here   |
| Township | Permanent | Voter     | what island....less property taken from tax base...need to upkeep the areas taken over by the parks rather than trying to add more parks...  |
| Township | Seasonal  | Non Voter | Taxes are too high. We have seen a substantial increase in our property taxes. It would be helpful if we could rent our place occasionally to help offset our taxes. Where is the money coming from for two police systems. More taxes? The island had lost its appeal for families. The grocery store is an eyesore inside and out. The property itself is rundown. I hope I've been clear. Greed has ruined it. Do we really need a theme for every weekend? |
